COLONIAL REGULATIONS.

PART I.—PUBLIC OFFICERS.

CHAPTER I.—Application of the Regulations.

1. The Regulations* apply to public officers serving in the following Dependencies:—

Bahamas.
Barbados.
Bermuda.
British Guiana.
British Honduras.
British Solomon Islands Protectorate.
Ceylon.
Cyprus.
Falkland Islands.
Fiji.
Gambia.
Gibraltar.
Gilbert and Ellice Islands Colony.
Gold Coast (including Togoland).
Hong Kong.
Jamaica.
Kenya.
Leeward Islands.
Malta.
Mauritius.
Nigeria (including the Cameroons).
Northern Rhodesia.
Nyasaland Protectorate.
Palestine.
Saint Helena.
Seychelles.
Sierra Leone.
Somaliland Protectorate.
Straits Settlements.
Tanganyika Territory.
Trinidad and Tobago.
Uganda Protectorate.
Windward Islands.
Zanzibar Protectorate.

Note (1).—The Regulations do not in themselves apply to officers in the service of the Federated Malay States, but the principles of the Regulations are applied to such officers by the incorporation of certain of the Regulations in the Federated Malay States General Orders.

Note (2).—These Regulations apply to the British Resident, Trans-Jordan, and his staff.

2. In these Regulations the term "Colony" includes any territory in which the Regulations are in force, and the term "Governor" includes all officers appointed to administer Governments, however

CHAPTER II.—Governors.

A. *Appointment.*

3. A Governor is appointed during His Majesty's pleasure, but his tenure of office is as a rule a period of six years from his assumption of the administration.

B. *Salary and Leave.*

4. When the office of Governor becomes vacant or when the Governor is on leave, other than leave, the person succeeding to the administration of the Government, if he be an officer in the Colony, shall receive half the salary of the Governor, and half the salary of his own office.

Should the person called to the temporary administration have been transferred from the elsewhere, he shall receive the whole salary of the Governor, if available, but in that case he shall to any portion of the salary of the office from which he has been transferred. During the absence other than full-pay leave, of a Governor, and after the embarkation of a newly-appointed person is only entitled to the half salary available. Whether he may also receive half the salary from which he has been temporarily transferred shall depend on the arrangements made for a substitute, and shall be decided in each instance by the Secretary of State.

This Regulation does not apply to European officers in Tropical Africa.

5. The leave of a Governor is regulated by special rules of local application; but in most the Governor may be granted leave with full salary, exclusive of entertainment or duty allowance not exceeding six weeks in any one year. In the absence of the Governor from the Colony administering the Government shall receive in full any allowance provided for entertainment duty allowance.

6. If the period of a vacancy or of the absence of the Governor should exceed nine months, be any salary available, reasonable arrangements shall be made, with the approval of the Secretary for the increase of the salary of the temporary holder for the period of excess.

7. A Governor on appointment shall receive half salary if available from the date of entry Colony. An officer succeeding to the administration of a Government shall be entitled to of the day on which he assumes the administration. The officer whom he succeeds shall not payment for that day in respect of the administration of the Government.

8. If a Governor is transferred from one Colony to another and visits England on his way, of State is satisfied that the visit is unavoidable or in furtherance of the public interest, a general rule the half salary of the office which he relinquishes, until the date of his embarkation but if such half salary is not available he shall, as a general rule, receive the half salary of no half salary is available from either Government, he can receive no salary.

C. *Passages.*

9.—(1) The following is the scale of allowances granted from Imperial funds to Governors the usual term of years in respect of their passages from this country:—

Bahamas	£400	Ceylon	..
Barbados	330	Cyprus	..
Bermuda	350	Falkland Islands	..
British Guiana	330	Fiji	..
British Honduras	350	Gambia	..

* In certain Dependencies the application of particular Regulations has been modified by of the Secretary of State.

Digitized by Google

braltar	£210	Palestine	£340
ld Coast	440	Saint Helena	450
ng Kong	660	Seychelles	650
maica	300	Sierra Leone	390
nya	630	Somaliland	100
eward Islands	330	Straits Settlements	630
lta	300	Tanganyika Territory	640
uritius	720	Trinidad and Tobago	330
geria	450	Uganda	630
rthern Rhodesia	600	Windward Islands	330
assaland	690		

The passages of the Commissioner of Somaliland and the British Resident, Zanzibar, are paid from the nds of those Protectorates.

(2) When a Governor is appointed for less than the usual term of years the question of the amount of the ssage allowance to be paid will be decided according to the circumstances of the case.

(3) The scale of allowances shown in this Regulation shall be liable to revision from time to time as the cretary of State and the Lords Commissioners of the Treasury may determine.

10. A Governor is not entitled to any passage allowance from Imperial funds when proceeding on, or turning from, leave of absence.

11. On the expiration of his term of office a Governor shall be granted a passage allowance in respect of the meward journey of the same amount as that provided for the outward journey; but the allowance may t be drawn without the previous sanction of the Secretary of State.

12. A Governor who is relieved at his own request before the expiration of his term of office must provide s own passage.

13. A Governor transferred to another appointment before the expiration of his term of office shall receive ch passage allowance as may be determined by the Secretary of State and the Lords Commissioners of e Treasury to be appropriate in the particular circumstances of the case.

14. A Governor who is transferred while in the United Kingdom on leave, other than final leave at the piration of his term of office, and who does not return to his old Colony, shall receive the authorised passage lowance from England to his new Colony. If the usual route from his old to his new Colony is via England may also be granted at the discretion of the Secretary of State a proportion not exceeding one-half of the meward passage allowance from his old Colony to England.

D. *Passages in His Majesty's Ships.*

15. No passage in His Majesty's ships shall be given to Governors or other public officers at the public pense except on the application of the Governor to the senior naval officer on the station. The expense r the entertainment of such passengers will not be paid from public funds, unless the Secretary of State pproves.

16. The expense for the entertainment on board of His Majesty's ships of a Governor or other public officer ust be paid to the paymaster of the ship at the end of the voyage, and, if possible, before leaving the ship.

17. The scale of allowance for entertainment on His Majesty's ships at the table of the Captain or ommanding Officer is as follows:—

I. For any Governor or High Commissioner whose salary is not less than £3,000 per annum exclusive of allowances, £4 per diem for the first *seven* days, and afterwards 21s. a day.

II. For any other Governor, or for a Lieutenant-Governor, Administrator, or Commissioner, £3 per diem for the first *seven* days, and afterwards 21s. a day.

III. For the persons composing the suite of Governors, etc., 21s. a day for each male person above the age of 16; two-thirds of that sum for every female above 16; one-third for such of either sex as shall be between the ages of 7 and 16: and one-fourth for such as may be under 7 years of age.

IV. For other public officers 21s. a day for the first *fourteen* days, and 15s. a day afterwards: and the proportions with respect to age and sex as stated in the preceding paragraph.

Payment for entertainment in His Majesty's ships is to be calculated according to the dates of the first nd last dinners taken on board.

18. When a Governor or other public officer is proceeding in a ship of war on a tour of inspection which equires him to disembark at various ports, the higher rate per diem shall in general only be paid for the seven lays' entertainment following his first embarkation. If there are special reasons for repeating this higher ate, it must form the subject of special representation to the Secretary of State before it is made.

19. When a Governor or other public officer disembarks for the purpose of performing bona fide public ervice, and has not been able to give the Captain or Commanding Officer beforehand such information as o the days on which he will be absent from the ship as will prevent expense in preparing for his entertainment n those days, one-half of the rates of allowance above authorised shall be payable in respect of such absence, nd each day in respect of which such half-rates are paid shall be counted as a full day for the purpose of omputing the seven or fourteen days referred to in the preceding Regulations.

CHAPTER III.—Officers.

A. *Appointments.*

20. The Regulations as to appointment to public offices are directions given by the Crown to the Governors for general guidance and do not constitute a contract between the Crown and its servants.

21. Appointments to public offices are made by authority of His Majesty, and such offices are held during His Majesty's pleasure.

Digitized by Google

Kenyon Coll. and ... ARD, NEIL.—B. 1911

22. Judges of the Supreme Court are appointed in His Majesty's name by an instrument under the Seal of the Colony. Other appointments to public offices are made either (*a*) by letter signed by the Governor or written by his direction, or (*b*) by a formal agreement between the officer and the Colonial Government or its appointed agent.

23. Public offices are divided into three classes :—

Class I. Those of which the initial emoluments do not exceed two hundred pounds per annum.

Class II. Those of which the initial emoluments exceed two hundred but are less than four hundred pounds per annum.

Class III. Those of which the initial emoluments are not less than four hundred pounds per annum.

24. When a vacancy occurs in Class I an appointment may be made by the Governor.

25. When a vacancy occurs in Class II a provisional appointment may be made by the Governor to be reported to the Secretary of State for approval in the quarterly return of officers newly appointed to offices in Classes II and III.

26. The powers of the Governor under the two preceding Regulations do not extend to the appointment or provisional appointment of a person not resident in the Colony.

27. The appointment to a public office of a person who has been connected with the Governor as secretary, aide-de-camp, or otherwise, is open to objection and must not be made without previous reference to the Secretary of State.

28. When a vacancy occurs in Class III the Governor shall report it immediately to the Secretary of State. The Governor may recommend a candidate to fill the vacancy, but it must be clearly understood that the Secretary of State may select another candidate. Any person who is appointed to act in the vacancy shall be distinctly informed that he holds the office only until his appointment is confirmed or cancelled under directions from the Secretary of State.

29. In reporting a vacancy in Class III, the Governor shall furnish in duplicate full particulars in the form given in Appendix 1.

30. In the selection of candidates for vacant offices in Classes II and III, the claims of members of officers in the Colonial Service will generally take precedence of those of persons not already in the Service.

31. Unless otherwise provided in the conditions of employment, the appointment of an officer in the service shall be subject to a period of probation in accordance with regulations approved by the Secretary of State. The Governor shall have power to terminate an officer's probationary appointment at any time, for any reason, during the period of probation. At the end of the period of probation the officer, if his probationary appointment is terminated or extended, be confirmed in his appointment. The termination of an officer holding a post in Class III, or the termination or extension of the probationary period of such an officer, shall be subject to the approval of the Secretary of State.

32. The claims of officers for promotion will be considered on the basis of official qualifications and merit.

33. The Governor shall, save as otherwise directed by the Secretary of State, furnish annually a report on the form given in Appendix 2 on every officer falling within any of the following classes :—

(*a*) Officers holding posts in Class III with eight or more years' service.

(*b*) Officers drawing £700 per annum or over.

(*c*) Officers who are not included in (*a*) or (*b*) who are heads of departments, or who are specially fitted for promotion or for transfer in the Colonial Service.

The Governor's report to the Secretary of State shall not be shown to the officer, but the Head of the Department (or Reporting Officer) shall communicate his report to the officer, if it draws attention to faults or shortcomings which it may not have power to amend.

The Governor shall also submit an annual report on officers on the active list of the Colony employment in the Colony, on whom reports are not made to the War Department.

B. *Acting Appointments.*

34. During the absence on full-pay leave of the substantive holder of an office, provision for the discharge of the duties of the office shall not involve any extra cost to public funds—

(*a*) where the Secretary of State has approved local regulations governing the grant of ... tion in such cases, or

(*b*) in very special circumstances with the approval of the Secretary of State.

35. When an office is vacant in a Colony for any reason other than the absence on full pay ... the person appointed to act in that office shall be remunerated as follows :—

(1) When the person appointed is not in the public service he shall be remunerated ... the Governor may decide, but not exceeding the initial emoluments of the office.

(2) When he is the holder of another office but is not required to discharge the ... while acting :—

(*a*) If his substantive emoluments are not less than the minimum emoluments ... he is acting, he shall continue to receive the former ;

(*b*) Otherwise he shall receive half the initial salary of the office in which ... the initial salary of his substantive office, and all the increments ... substantive office, and any personal allowance to which he may be entitled ... shall not receive in all more than the minimum emoluments of the ...

(3) When he is the holder of another office and is required to discharge the ... addition :—

(*a*) If the offices are distinct and separate offices in different departments ... another in any immediate relation of superiority or subordination ... emoluments of the office in which he is acting and the ... office ;

Digitized by Google

Otherwise he shall be remunerated as though his case fell under section 2 of this Regulation.
) purpose of this Regulation :—
) *An officer's emoluments* comprise the whole of his receipts from public funds other than fees and allowances for out-of-pocket expenses.
) *The emoluments of the office* are the emoluments paid in virtue of occupation of the office and do not include any allowances of a personal nature.

ouse allowance, if any, payable in respect of the office in which an officer is acting shall be paid to him t a higher rate than the house allowance payable in respect of his substantive office; the latter shall event lapse, or accrue to the person, if any, appointed to act in the office. In no case may a person house allowance in respect of more than one office.

he fees, if any, of the vacant office shall be dealt with by local regulation.

C. *Seniority.*

Except where otherwise provided seniority as between persons selected for appointment from outside ony shall be determined by the date of arrival in the Colony. Where, however, two or more persons l from outside the Colonial Service arrive on the same date seniority *inter se* shall be determined by e of the letter from the Colonial Office confirming the selection, or, in the case of officers engaged on ent, by the date of the agreement. Seniority in any department shall be determined by the date of er's appointment to the particular class or grade in which he is serving.

D. *Salaries and Allowances.*

On appointment to an office of a person not within the Colony, as a general rule half salary shall be from the date of embarkation, and full salary from the date of arrival in the Colony, provided that the proceeds direct to the Colony to which he is appointed; otherwise he shall be paid half salary for such ily as is ordinarily required to perform the journey between the port of embarkation and that of arrival Colony.

If the appointment of an officer who is acting in a vacant office is confirmed, he shall receive the full of that office, if available, from the date on which he entered on the duties, but from the date from which ives such full salary he shall not be entitled to salary on account of any other office which he may have t the same time.

An officer who is promoted in the ordinary course in the Colony in which he is serving shall be eligible ive the salary of his new scale, grade, or office, if it be available, as from the date when the vacancy ed, even if he is on leave of absence at the date in question.

When the salary of an office is on an incremental scale, the holder shall not be entitled to draw any ent as of right, but only by sanction of the Governor. In the case of an officer (not being the head of rtment) a certificate shall be required from the head of his department that he has discharged his duties fficiency, diligence, and fidelity.

Except as otherwise provided an officer's incremental date shall be the date on which he takes up his tment in the Colony.

Except in a case of promotion from a non-pensionable to a pensionable office, the following rules shall when an officer is promoted in the ordinary course in the Colony in which he is serving to an office carrying on an incremental scale :—

(i) If immediately prior to his promotion the salary of the officer was less than the minimum of the new office, he shall receive the minimum; but if he was qualifying for increment in his former office and had already earned such an amount of increment as would bring his salary up to the minimum of the scale of his new office, then any balance of the increment in his former scale shall, subject to rule (iv), be taken into account in fixing the date of his first increment in his new scale.

(ii) If his salary was not less than the minimum of the new office he shall, subject to rules (iii) and (iv), continue to receive his existing salary until by length of service at his new incremental rate he has earned such an amount of increment as will bring him to the next higher incremental step in his new scale. But, if he was qualifying for increment in his former office, the date of increment in his new scale shall, subject to rule (iv), be advanced proportionately even though it may mean the immediate grant of one increment and the advancement of the normal date for a further increment.

(iii) If the maximum (or fixed) salary of his former office was not less than the minimum of his new office and he has at the date of his promotion served at that salary for a period exceeding one year, then one-half of such excess period shall, subject to rule (iv), count towards an increment in his new scale, but in no case shall he be given more than one increment on this account.

(iv) If his former office was one to which no duty, seniority, or similar non-pensionable allowance was attached, and he is promoted to an office carrying such allowance, he shall serve for a full incremental period in the new office before becoming eligible for an increment.

erm "salary" in this Regulation shall include any personal or other allowance which is payable in money which ranks as a pensionable emolument.

. When an officer receives, in addition to the salary of his office, an allowance granted to himself personally, not permanently attached to his office, he may when absent on half-pay leave receive only half of such onal allowance, the remaining moiety being left undrawn and lapsing to the Colonial Treasury.

When an officer on leave is entitled only to half pay no private arrangement is to be made with the object curing to him more than half pay.

. An officer on leave shall not be eligible for any transport, travelling, or house allowance, or any fees.

. An officer may, during periods of resident service, remit through the Crown Agents for the Colonies ngle equal monthly instalments, a portion of his salary for payments to any bank, firm, or person he may

Digitized by Google

name. Such payments shall not, as a rule, exceed half his salary, exclusive of duty pay and local allowances, but in exceptional cases the Governor may authorise remittances in excess of half salary. Requests for such payments may be made to the Crown Agents direct, before the departure of the officer from the United Kingdom, and will then remain operative until (1) altered or cancelled by the Colonial Government concerned through which all subsequent communications on the subject shall be sent, or (2) the officer comes on leave or his leave certificate reaches the Crown Agents.

49. No officer shall be entitled to claim compensation in respect of losses of or damage to private property incurred through fire, theft, riot, or otherwise, in the course of his service; but in special cases, subject to any local regulations, the Governor may consider the grant of compensation as an act of grace. No such concession shall, however, be made in respect of losses which in the opinion of the Governor were due to negligence for which the officer was responsible or which could reasonably have been covered by insurance.

E. *Conduct and Discipline.*

(*a*) *General provisions.*

(N.B.—Further Regulations concerning the conduct of officers in connection with the receipt, custody and disbursement of public funds and the custody of Government stores, etc., will be found in Part II, Chapter VII, of the Regulations.)

50. Officers are required to discharge any duties upon which the Governor may think it desirable to employ them.

51. An officer who is absent from the Colony without permission shall be liable to summary dismissal.

52. An officer whose remuneration is fixed on the assumption that his whole time is at the disposal of the Government is prohibited from engaging in trade, or employing himself in any commercial or agricultural undertaking.

53.—(1) An officer, whether or not his whole time is at the disposal of the Government, shall on appointment to the service of any Colony disclose to the Governor particulars of any investment or shareholding which he may possess in any company carrying on business in the Colony, or any other direct or indirect interest in such company, or in any local occupation or undertaking. If the Governor shall decide that by reason of the facts disclosed the officer's private affairs might be brought into real or apparent conflict with his public duties or in any way influence him in the discharge of his duties, the officer shall to such extent as the Governor may direct divest himself of such investments or interests.

(2) An officer shall not directly or indirectly acquire investments or interests of the nature mentioned in this Regulation without the express permission of the Governor.

54. Serious pecuniary embarrassment, from whatever cause, will be regarded as necessarily impairing the efficiency of an officer and rendering him liable to disciplinary proceedings at the discretion of the Governor.

55. An officer on leave of absence shall not accept any paid employment without previously obtaining the express sanction of the Secretary of State or, if his leave is spent in the Colony, of the Governor.

56. An officer shall not undertake any private agency in any matter connected with the exercise of his public duties.

57. An officer shall not, without the express permission of the Secretary of State or of the Governor, act as the editor of any newspaper, nor take part directly or indirectly in the management thereof, nor contribute anonymously thereto, nor publish in any manner anything which may be reasonably regarded as of a political or administrative nature.

He may, however, publish in his own name matter relating to subjects of general interest.

58. An officer, whether on duty or on leave of absence, shall not allow himself to be interviewed on questions of public policy or on matters affecting the defence or military resources of any part of the British Empire.

59.—(*a*) Governors and all other officers are prohibited from receiving valuable presents (other than the ordinary gifts of personal friends), whether in the shape of money, goods, free passages, or other personal benefits, and from giving such presents.

(*b*) This Regulation applies not only to the officers themselves but also to their families, and officers will be held responsible for its observance by their families. It does not apply to cases of remuneration for special services rendered and paid for with the consent of the Government.

(*c*) This Regulation may be relaxed on the occasion of an officer's retirement from the public service but only with the special permission of the Secretary of State previously obtained.

60. Presents from rulers, chiefs, and other persons which cannot be refused without giving offence shall be handed over to the Government.

When presents are received on behalf of the Colonial Government in ceremonial intercourse they shall be handed over to the Government, and any return presents shall be given at the Government expense.

61. Money which has been subscribed with a view to marking public approbation of an officer's conduct may be dedicated to objects of public purpose and connected with the name of the person who has received such a proof of the general esteem.

62. The Governor shall not without special permission accept or forward any articles for presentation to His Majesty.

(*b*) *Disciplinary procedure.*

63. Holders of patent offices may be amoved from such offices by the Governor in Council under Section 4 of the Act 22 Geo. 3, c. 75, or they may be suspended or dismissed by the Governor under the powers in that respect conferred by the Letters Patent or other instrument of Government.

In either case the procedure prescribed under Regulation 68 should be adopted.

In the case of amotion an appeal lies as of right to His Majesty in Council.

In the case of suspension the Secretary of State will as a general rule refer to His Majesty in Council the question whether the dismissal of the officer should be authorised.

Digitized by Google

64. An officer holds office subject to the pleasure of the Crown, and the pleasure of the Crown that he should longer hold it may be signified through the Secretary of State, in which case no special formalities are uired.

65. If it is represented to the Governor that an officer has been guilty of misconduct, and the Governor of opinion that the misconduct alleged is not serious enough to warrant proceedings under Regulations 66 d 68, with a view to dismissal, he may cause an investigation to be made into the matter in such manner he shall think proper, and the officer shall be entitled to know the whole case made against him, and shall ve an adequate opportunity throughout of making his defence.

If as a result the Governor is of opinion that the allegation is proved, he may inflict such punishment upon officer by way of fine or reduction in rank, or otherwise, as may seem to him just.

In the case of an officer whose pensionable emoluments exceed £200 a year any such punishment shall be mediately reported to the Secretary of State and the report shall be accompanied by a statement of the ence, the evidence in support, and such observations as the officer has made or desires to make. The cretary of State may approve, vary, or remit the punishment.

This Regulation is without prejudice to any local law or regulation providing for the punishment of officers the Governor or the head of a department.

66. An officer whose pensionable emoluments do not exceed £200 a year may be dismissed by the Governor, ovided that in every such case where the officer has not been convicted on a criminal charge the grounds intended dismissal are definitely stated in writing, and communicated to the officer in order that he may ve full opportunity of exculpating himself, and that the matter is investigated by the Governor with the d of the head of the department.

If such an officer is convicted on a criminal charge, the Governor may call for the records of the trial and rm his decision thereon, with the assistance if necessary of the officer who tried the case.

In lieu of dismissal the Governor may remove the officer to an office of lower rank in the service, or may quire him to serve in his original office at a reduced salary, either permanently or for a stated period, or ay deduct a portion of salary due, or about to become due, to the officer. Such dismissal or other punishment ill not require the confirmation of the Secretary of State, but any memorial from the officer must be forwarded the Secretary of State without delay with a statement of the grounds of dismissal or other punishment.

67. Notwithstanding the above provisions, if the Governor considers that any such officer should be removed om the service on grounds of general inefficiency, he must call for a full report from the heads of the depart- ents in which the officer has served; and if, after considering that report and giving the officer an opportunity f submitting representations on his own behalf, he is satisfied that it is necessary in the public interest, he ay remove the officer. In every such case the question of pension will be dealt with under the laws or gulations of the Colony.

68. An officer whose pensionable emoluments exceed £200 a year may be dismissed by the Governor only accordance with the following rules unless the method of dismissal is otherwise provided for in these egulations or by local law:—

(i) The officer shall by direction of the Governor be notified in writing of the grounds on which it is proposed to dismiss him and he shall be called upon to state in writing before a day to be specified (which day must allow a reasonable interval for the purpose) any grounds upon which he relies to exculpate himself.

(ii) If the officer does not furnish such statement within the time fixed by the Governor, or if he fails to exculpate himself to the satisfaction of the Governor, the Governor shall appoint a Committee to inquire into the matter. The Committee shall consist of the Attorney-General, as Chairman, and two other members of the Executive Council.

(iii) The officer shall be informed that on a specified day the question of his dismissal will be brought before the Committee and that he will be allowed and, if the Committee shall so determine, required to appear before the Committee and defend himself.

(iv) If witnesses are examined by the Committee, the officer shall be given an opportunity of being present and of putting questions to the witnesses on his own behalf, and no documentary evidence shall be used against him unless he has previously been supplied with a copy thereof or given access thereto.

(v) The Committee may, in its discretion, allow the officer to be assisted by a friend, being an officer in the public service, or in exceptional circumstances by counsel, and when such permission is given the officer's case may be conducted by such friend or counsel.

The Committee may at any time withdraw their permission to the officer to be so represented, and refuse to hear his friend or counsel, in which case they shall allow the officer such adjournment as is reasonably necessary to enable him to present his case in person.

(vi) If during the course of the inquiry further grounds of dismissal are disclosed, and the Governor thinks fit to proceed against the officer upon such grounds, the officer shall by the Governor's direction be furnished with a written statement thereof and the same steps shall be taken as are above prescribed in respect of the original grounds.

(vii) The Committee having inquired into the matter shall make a report to the Governor, who shall consider the same in Executive Council. If the Council are of opinion that the report should be amplified in any respect or that further inquiry is desirable, they may refer any matter back to the Committee for further inquiry or report accordingly. The Council shall not itself hear witnesses save in exceptional circumstances and at the request of the Governor.

(viii) If upon considering the report of the Committee the Governor is of opinion that the officer should be dismissed he shall forthwith suspend him from the exercise of his office and from the enjoyment of his salary and shall without loss of time report the matter to the Secretary of State, transmitting the minutes of the Council, the report of the Committee, a copy of the evidence and of all material documents relating to the case, together with a recommendation that the officer should be dismissed.

(ix) If the Secretary of State approves the recommendation for dismissal, the Governor shall dismiss the officer and the dismissal shall take effect from the date upon which he was suspended by the Governor and he shall not be entitled to any salary subsequent to such date.

(x) If the Secretary of State does not approve the officer's dismissal, and does not re... any penalty should be inflicted, the officer shall be forthwith reinstated and shall be ... the full amount of salary which he would have received if he had not been ...

(xi) If the Secretary of State considers that the officer deserves some punishment, but ... he will direct the Governor accordingly.

(xii) If upon considering the report of the Committee the Governor is of opinion that the ... not deserve to be dismissed, but deserves some lesser punishment, he may inflict ... penalty as seems proper in the circumstances, but shall, as in the case of a recom... for dismissal, report the matter to the Secretary of State for approval. If the Secret... does not approve the recommendation, he will direct the Governor to annul, reduce ... the punishment.

(xiii) If upon considering the report of the Committee the Governor is of opinion that the ... not deserve to be dismissed, but that the proceedings disclose grounds for remov... account of general inefficiency, he may recommend accordingly.

(xiv) An officer who has been suspended may, pending the decision of the Secretary of State ... be granted an alimentary allowance if the Governor shall consider him to be in ... assistance.

69. If in any case the Governor considers that the public interest requires that an officer should ... exercise the powers and functions of his office instantly, he may interdict the officer from the exercise ... powers and functions of his office provided that proceedings for his dismissal are being taken ... to be taken, or that criminal proceedings are being instituted against him. Subject to Regulation ... an officer who has been interdicted shall, unless and until he is suspended, be allowed to receive one-half ... of the emoluments of his office, not being less than one-half, as the Governor shall think fit. If the charges ... against any such officer do not result in the dismissal or other punishment of the officer, he shall be entitled ... to the full amount of the emoluments which he would have received if he had not been interdicted.

70. If criminal proceedings are instituted against an officer, proceedings for his dismissal upon charges ... involved in the criminal charge shall not be taken pending the criminal proceedings.

71. If an officer is convicted on a criminal charge, the Governor may cause the proceedings of the ... Court on such charge to be considered in Executive Council, and if he is of opinion that the officer ought ... be dismissed or subjected to some lesser penalty on account of the offence for which he has been convicted, the ... officer may thereupon be dismissed or otherwise punished without any of the proceedings prescribed by Regula... tion 68 being taken, but the action must be reported to the Secretary of State for approval.

72. An officer convicted on a criminal charge shall not receive any emoluments from the date of his ... pending consideration of his case by the Governor.

73. An officer acquitted of a criminal charge shall not be dismissed on any charge upon which he has been ... acquitted, but nothing in this Regulation shall prevent his being dismissed or otherwise punished on ... charges arising out of his conduct in the matter, provided that they do not raise substantially the same ... as those on which he has been acquitted; and if the Governor thinks fit the usual proceedings ... for the purpose.

74. An officer who is dismissed forfeits all claim to a retiring allowance, even though he has paid ... towards such allowance.

75. An officer who is under interdiction or suspension may not, without the permission of the Governor, ... leave the Colony during the interval before he is reinstated or dismissed.

76. Notwithstanding the above provisions, if the Governor considers that an officer whose ... emoluments exceed £200 a year should be removed on grounds of general inefficiency which cannot ... be dealt with by specific charges under the foregoing rules, he must submit a full report upon the ... Secretary of State, forwarding statements from the heads of the departments in which the officer has served, ... and the officer's reply thereto; and if the Secretary of State is satisfied that the officer's removal is ... in the public interest, it will be carried into effect by an intimation to the Governor that it is the wish of ... the Crown that the officer should no longer hold his office. In every such case the question of pension will be ... dealt with under the laws or regulations of the Colony.

(c) *Memorials and Petitions.*

77. Every officer who has any representations of a public or private nature to make to the Government ... should address them to the Governor through the Colonial Secretary. The duty of the Government is to hear ... and act upon each representation as public expediency or justice to the individual may require, ... with the assistance in certain cases of his Executive Council; and if he doubts what steps to take, ... or if public advantage may appear to require it, he shall refer the matter to the Secretary of State.

78. Any officer in a Colony has the right to address the Secretary of State, if he thinks fit; but in such ... case he must transmit such communication, unsealed and in triplicate, to the Governor, who will ... forward it in due course to the Secretary of State. Every letter, memorial, or other document ... received by the Secretary of State from a Colony otherwise than through the Governor is sent ... to the Governor for his report or returned to the writer. The rule requiring transmission to the Governor ... to the Secretary of State through the Governor is based on the strongest grounds of public policy, in ... order that all communications may be duly verified, as well as reported on, before they reach the Secretary ... of State. It extends, therefore, to communications relating to public affairs as well as to private ... writer.

79. Petitions addressed to the King or the King in Council and memorials to officers ... of His Majesty's Government in the United Kingdom must be in like manner sent to the Governor for ... mission to the Secretary of State.

Digitized by Google

80. The Governor shall transmit to the Secretary of State with all reasonable despatch every communication received by him in accordance with Regulations 78 and 79 accompanied by such report as its contents may appear to him to require.

F. *Passages.*

81.—(*a*) A person not already in the public service who is selected for appointment to a public office shall receive a free passage to the Colony, and he shall sign an agreement to refund the cost of the passage in certain contingencies.

(*b*) When an officer is transferred from one Colony on appointment to an office in another Colony, he shall receive at the expense of the Colony to which he is proceeding a free passage by the cheapest and most direct route.

(*c*) The question whether free or assisted passages to the Colony may be provided for an officer's wife and family on the occasion of his appointment or transfer, and the question of passage assistance when he proceeds on leave, shall be governed by local regulations made with the approval of the Secretary of State.

G. *Leave.*

82. The leave of absence of officers shall be governed by rules of local application as directed by the Secretary of State.

83. The Governor shall report to the Secretary of State each case in which leave of absence from the Colony has been granted. If any part of the leave is to be spent in Europe he shall transmit a leave certificate in the approved form. The officer proceeding on leave shall be furnished with a duplicate of the certificate to enable him to draw his salary. A third copy of the certificate shall be sent direct to the Crown Agent for the Colonies, whether his salary is to be paid by the Crown Agents or not.

84. On arrival in Europe the officer shall report his arrival and address to the Colonial Office and the Crown Agents for the Colonies, and he shall notify any subsequent change of address. Treasurers and Auditors of Colonies whose accounts are subject to audit by the Director of Colonial Audit shall also send their addresses to the Colonial Audit Department.

85. An officer seeking an extension of leave must, in the absence of exceptional circumstances, apply to the Secretary of State in sufficient time to allow of reference to the Colony by mail.

86. Leave may be extended by the Secretary of State if the officer is required or permitted to remain in the United Kingdom on public grounds.

87. Officers may be required by the Secretary of State to discharge any duty or to go through any course of instruction which he may think necessary during their leave of absence, and will not be entitled to any additional remuneration in consideration of such employment. Allowances may, however, be granted to cover necessary out-of-pocket expenses, and extensions of leave may be granted in appropriate cases.

H. *Medical Examinations.*

88. Every person selected for appointment to the Colonial Service shall be required to present himself for examination to an approved medical practitioner with a view to its being ascertained whether he is physically fit for service. Unless otherwise provided in the offer of appointment, the fee for such examination shall be paid by the candidate. If the candidate is not finally passed as physically fit for service, his appointment shall not be proceeded with.

89. In the case of an officer proceeding on leave to the United Kingdom, a statement shall be furnished showing whether or not he is to be examined on arrival by one of the Consulting Physicians to the Colonial Office.

90. If an officer is required to be examined by one of the Consulting Physicians, the Governor shall transmit full information regarding the officer's health record during his last tour of service and a medical report of his state of health before proceeding on leave. The officer shall be furnished in writing with medical advice as to any precautions which he should take during the voyage and his subsequent leave.

91. Any officer who falls ill so as to require medical attendance while proceeding on leave of absence to the United Kingdom, or during such leave, and remains ill for a week, must report the fact to the Colonial Office, and he shall, if required, send at his own expense periodical reports from his medical attendant as long as he remains under medical care.

92. The Governor may at any time (and shall, if the officer so requests) call upon an officer to present himself for examination to an approved medical practitioner, or to a duly constituted medical board, with a view to its being ascertained whether the officer is physically capable of performing the duties of his appointment or to any appointment to which it may be proposed to transfer him.

93. An officer on leave of absence may be required, or at his own request may be permitted, by the Secretary of State to present himself for examination to an approved medical practitioner, with a view to obtaining a report as to the officer's physical fitness to return to his duties or to take up a fresh appointment.

94. In the case of examinations under either of the two preceding regulations,

(*a*) Any fees in respect of the examination shall, in the absence of any special regulations or arrangement to the contrary, be paid by the Government;

(*b*) The person or persons appointed to conduct the examination shall have discretion to call a specialist into consultation, and any fee due to the specialist for assistance in rendering a report to the Governor or to the Secretary of State shall be paid by the Government;

(*c*) The report of the examination shall be furnished to the Governor or to the Secretary of State as the case may be, and shall not be communicated to the officer concerned;

(*d*) The officer shall, however, be informed at the earliest possible date of the decision reached upon his case by the Governor or by the Secretary of State after consideration of the report; and if the officer is dissatisfied with that decision he shall be at liberty to make representations to this effect, in which event the Governor or the Secretary of State shall decide, at his discretion, whether any further medical evidence shall be called for.

COLONIAL REGULATIONS.

PART II.—PUBLIC BUSINESS.

CHAPTER IV.—Constitutions.

1. This part of the Regulations applies to the following Dependencies :—

I. Colonies possessing a form of self-Government within defined limits—namely, Ceylon and Malta—in so far as the Secretary of State has power to give directions.

I. Colonies in which the administration is carried on by public officers under the control of the Secretary of State for the Colonies, and Protectorates similarly controlled.

(i) Colonies possessing an elected House of Assembly and a nominated Legislative Council :—
Bahamas, Barbados, Bermuda.

(ii) Colonies possessing a Legislative Council consisting partly of elected, partly of nominated and partly of official members, of which the official members are not in the majority :—
British Guiana, Jamaica, Mauritius.

(iii) Colonies and Protectorates possessing a Legislative Council consisting partly of elected and/or nominated members and partly of official members, of which the official members are in the majority :—

Fiji,	Leewards Islands,	St. Vincent,
Grenada,	Nigeria (Colony & Protectorate),	Sierra Leone (Colony and Protectorate),
Gold Coast,	Northern Rhodesia,	
Kenya,	St. Lucia,	Straits Settlements,
		Trinidad and Tobago.

The Legislative Council of Kenya has power to legislate for the Kenya Protectorate.

The Legislative Council of Nigeria has power to legislate for the Northern Provinces only in financial matters. In other matters the power of legislation is vested in the Governor.

(iv) Colonies and Protectorates possessing a Legislative Council consisting partly of nominated and partly of official members :—

British Honduras,	Hong Kong,	Uganda Protectorate,
Falkland Islands,	Nyasaland Protectorate,	Zanzibar.
Gambia,	Seychelles.	

In the Councils of all the above, except British Honduras, the constitution provides for an official majority.

The Legislative Council of the Gambia has power to legislate for the Gambia Protectorate.

(v) Colonies and Protectorates without a Legislative Council :—

Ashanti,	Gibraltar,	St. Helena,
British Solomon Islands Protectorate,	Gilbert and Ellice Islands Colony	Somaliland.
Cyprus,	Northern Territories of the Gold Coast,	

In all these Colonies and Protectorates, except Bahamas, Barbados, Bermuda, British Honduras, Jamaica, and the Leeward Islands, the Crown has the power of legislating by Order in Council.

II. Territories in respect of which Mandates on behalf of the League of Nations have been accepted by His Majesty :—

(i) Palestine (excluding Trans-Jordan). The Palestine Order in Council, 1922, provides for a Legislative Council consisting partly of elected and partly of official members the constitution of which does not provide for an official majority. This part of the Order has been temporarily suspended by the Palestine (Amendment) Order in Council, 1923, and pending the actual establishment of the Legislative Council legislation is effected by the High Commissioner with the assistance of an Advisory Council consisting of officials.

(ii) Tanganyika Territory, in which the Legislative Council is partly nominated and partly official.

iii) The Cameroons under British Mandate, divided into a Northern part in respect of which the Governor of Nigeria possesses powers of legislation, and a Southern part in respect of which the Governor and Legislative Council of Nigeria possess powers of legislation.

(iv) Togoland under British Mandate, in respect of which the Governor of the Gold Coast possesses powers of legislation.

In these Regulations the term " Colony " includes any territory to which the Regulations apply.

102. The officer appointed by the Crown to administer the Government is styled either :—
Governor and Commander-in-Chief,
Captain-General and Governor-in-Chief,
High Commissioner and Commander-in-Chief,
High Commissioner, or
Commissioner.

Digitized by Google

to Ken
1936. med. offr., Kewloon hosp.,
PRITCHARD, Neil.—R 1911
Coll. and War

In these Regulations the term "Governor" includes all officers appointed to administer Government however styled.

103. The officer so appointed receives a Commission under the Royal Sign Manual and Signet powers are conferred and his duties are defined by His Majesty's Commission and the Instructions which he is furnished.

104. If through death or absence or otherwise he should become incapable of acting, the government on such officer or person as may have been designated for that purpose in the Letters Patent or Order constituting the office.

105. The Governor is the single and supreme authority responsible to, and representative of, His Majesty. He is, by virtue of his Commission and the Letters Patent or Order in Council constituting his office, entitled to the obedience, aid, and assistance of all military, air force, and civil officers; but although he may have the title of Captain-General or Commander-in-Chief, and although he may be a military or air force officer superior in rank to the officer commanding the troops or air force, he is not, except on special appointment from His Majesty, invested with the command of His Majesty's Regular Forces in the Colony. He is therefore not entitled to receive the allowances annexed to that command nor to take the immediate direction of military or air operations, nor, except in cases of urgent necessity, to communicate officially with subordinate military or air force officers without the concurrence of the officer in command of the forces, to whom any unauthorised communication must be immediately notified.

106. The Governor, as the King's representative, will give the "word" (parole) in all places where government.

107. The officer commanding the troops or air force will render to the Governor such returns as require relating to the strength and condition of the forces, or to the military or air defences of the Colony.

108. On the receipt of a notification that the Army and Air Force (Annual) Act has received the Assent the officer commanding the troops or air force will communicate to the Governor the "General Order" in which it may be promulgated.

109. Where several Colonies are comprised in one military or air force command, the officer in command of the whole may transfer forces from one Colony to another on the application of the Governor of the Colony to which the forces are to be sent. This application should when practicable contain the written opinion of the military or air force officer, if any, there in command; but the officer in command must in all cases consult with the Governor of the Colony from which the forces are sent, and will incur a grave responsibility if he sends them away without the Governor's consent, except under special instructions from His Majesty's Government.

110. For the purposes of Regulations 105 to 109, Colonies comprised under one government may be regarded as a single Colony.

111. The Governor has no authority over the movements of His Majesty's ships, and is not to issue orders to officers of the Royal Navy. But, it being a general obligation on all His Majesty's military officers to afford mutual assistance to each other in cases affecting the King's service, the Admiral-in-Chief of a station or the senior officer present at a port is instructed in the King's Regulations to pay due regard to such requisitions as he may receive from the Governor, having for their object the protection of His Majesty's possessions, the benefit of the trade of his subjects, or the general good.

112. In urgent cases, when the requisitions may conflict with the instructions from the authority under which he is acting and when reference by telegraph or otherwise to such authority is impracticable, a naval officer is instructed to consider the relative importance and urgency of the service as compared with his instructions, whether general or special; and he is to decide what may seem best for His Majesty's service. In so doing he is instructed to bear in mind the responsibility that would rest on him if the circumstances were not such as fully to warrant the postponement of operations from his naval superior to the more pressing requisitions from the Governor.

113. In cases where high political considerations demand the decision of His Majesty's Government in respect of the action to be taken, the Governor should communicate his opinion that the employment of His Majesty's ships is necessary direct to the Secretary of State, instead of direct to the Commanding Officer of His Majesty's ship, unless the lives and property of British subjects are in such imminent danger as to require immediate action.

CHAPTER V.—CEREMONIES.

A. *Precedence.*

114. The precedence of officers in Colonies is determined by local enactments, by Royal Instructions either under the Royal Sign Manual and Signet or through the Secretary of State, and by local usage.

115. In the absence of any special authority Governors will guide themselves by the following table of Colonial precedence:—

The Governor or officer administering the Government.
The Lieutenant-Governor.
The officer in command of the Naval Forces on the Station in which the Colony is situated, if of rank equivalent or superior to that of Rear-Admiral, the officer in command of the Military Forces in the Colony if holding rank equivalent or superior to that of Major-General, and

Digitized by Google

the air forces in the Colony if holding rank equivalent or superior to that of Air Vice-Marshal, their own relative rank and precedence being determined by the King's Regulations on that subject.
The Chief Justice.
The officer in command of the Naval Forces on the Station in which the Colony is included if of the rank of Commodore, the officer in command of the land forces in the Colony if of the rank of Brigadier, and the officer in command of the air forces in the Colony if of the rank of Air Commodore, their own relative rank and precedence being determined by the King's Regulations on that subject.
The Colonial Secretary.
The Members of the Privy or Executive Council.
The officer in command of the naval forces on the Station in which the Colony is included if of the rank of Captain or Commander, the officer in command of the land forces in the Colony if of the rank of Colonel or Lieutenant-Colonel, and the officer in command of the air forces in the Colony if of the rank of Group Captain or Wing-Commander, their own relative rank and precedence being determined by the King's Regulations on that subject.
The Puisne Judges.
The President of the Legislative Council.
The Members of the Legislative Council.
The Speaker of the House of Assembly.
The Members of the House of Assembly.
The Chief Commissioners, Government Agents, or Resident of Provinces.
The Solicitor-General.
The officer in command of the Naval Forces on the Station in which the Colony is included if below the rank of Commander, the officer in command of the land forces in the Colony if below the rank of Lieutenant-Colonel, and the officer in command of the air forces in the Colony if below the rank of Wing-Commander, their own relative rank and precedence being determined by the King's Regulations on that subject.

16. When two or more Colonies, Protectorates, or Mandated Territories are comprised within one naval, itary, or air force command, then in the table in the preceding regulation:—

(i) the term "officer in command of the Naval Forces on the Station" shall include the senior officer of two or more of His Majesty's ships, or the senior officer of a Division of His Majesty's ships, present in the waters of the Colony and belonging to the Station in which the Colony is included, and shall also include a Resident Naval Officer at a naval base, who in the absence of the Commander-in-Chief of the Station in which the Colony is included is normally the senior officer at that base and is thus in command of any ships present;
(ii) the term "land forces in the Colony" shall include any permanent military force maintained by the Government in any Colony where there are no regular troops, but shall not include voluntary or auxiliary forces, and the term "officer in command of the land forces in the Colony" shall include the military officer holding the command in the Colony in the absence of the superior commanding officer; and
(iii) the term "officer in command of the air forces in the Colony" shall include the Air Force officer holding the command in the Colony in the absence of the superior commanding officer.

Any officer falling within the above definitions shall retain the precedence to which he is entitled under e preceding regulation, notwithstanding the presence in the Colony of the superior officer of the whole naval, ilitary, or air force command. No naval, military, or air force officers other than those included in the neral table of Colonial precedence, as above defined, have any place at all in that table, and the places corded therein to the senior officers of the three services have no connexion, except as between those officers, ith the regulations governing the precedence of officers of His Majesty's forces.

117. When a naval officer is a member of a Court of Inquiry into the circumstances attending the loss of merchant ship but does not preside over the Court he should sit at the right hand of, and so next in seniority), the President.

118. Members of the Royal Family take precedence in a Colony next after the Governor.

Except as provided in the following paragraph, British subjects who enjoy in the United Kingdom precedence y right of birth or by dignity conferred by the Crown do not lose such precedence while either temporarily r permanently residing in any Colony.

In the absence of special instructions from the King, and subject to any specific provision in the authorised cal tables, the precedence within a Colony of all persons holding office or discharging official duties, whether aval, military, air force, or civil, within that Colony is determined solely by official rank, and the wives of ich persons, even though they enjoy precedence in the United Kingdom by right of birth, take their place cording to the precedence of their husbands.

Persons entitled to official precedence in the United Kingdom, in foreign countries, or in any particular part His Majesty's dominions, are not entitled as of right to the same precedence elsewhere. In the absence of y special instructions from the King, the precedence of such persons will be determined by the Governor.

B. *Medals and Decorations.*

119. All medals and decorations emanate from the Sovereign and no decoration or medal may be issued thout His Majesty's approval having been first obtained. The King's Regulations respecting Foreign ders and Medals are inserted in Appendix 3.

C. *Salutes.*

120. The salutes to which Colonial officers are entitled are shown in the Table in Appendix 4.

121. Officers acting temporarily in any civil office are entitled during their temporary tenure to all the ours and salutes that may appertain to such office.

Digitized by Google

to Kew PRITCHARD, NEIL... Coll. and W...

122. Governors are authorised to sanction such salutes as may have been customary, or as may deem right and proper at religious ceremonies, and further to cause the usual salutes to be given on opening and closing of the Legislature; but these salutes are in no cases to exceed nineteen guns.

123. A Colonial Governor absent from his Colony on leave, or otherwise than on a special mission authorised by His Majesty's Government, is not entitled to receive any salute, or to fly any flag. These privileges are only permitted when he is actually representing the Sovereign. A Governor should decline all salutes or other official recognitions of a royal character from any foreign ship or troops.

D. *Flags.*

124. The Union Flag, without any badge, will be flown at Government House daily from sunrise to sunset.

125. The Union Flag, with the approved arms or badge of the Colony emblazoned in the centre on a white ground surrounded by a green garland (as shown in the drawing in Appendix 5), will be flown by a Governor or other officer administering a Government, when embarked in a boat or other vessel.

126. The British Blue Ensign with the arms or badge of the Colony emblazoned in the centre, *i.e.*, in the centre of that part between the Union and the end of the flag, shall be worn at the main as a pendant at the masthead by all armed vessels which belong to or are in the service of the Government of the Colony. (*See* drawing in Appendix 6.) Such vessels when not armed shall wear at the stern the Ensign with the badge of the Colony emblazoned as aforesaid but shall not fly a pendant.

127. All other vessels registered as belonging to His Majesty's subjects in His Majesty's Colonies and dependencies will fly the red ensign without any badge unless otherwise authorised by warrant from the Admiralty. Colonial merchant vessels may carry distinguishing flags with the badge or arms thereon, in addition to the red ensign, provided that such flags do not infringe Section 73 (2) of the Merchant Shipping Act, 1894.

128. Whenever a requisition is received by any officer in command of one of His Majesty's ships for embarkation or conveyance of a Governor or other officer administering a Government, the senior naval officer present may direct the flag which such official is entitled to use to be hoisted at the foretopgallant masthead of the ship in which he is embarked; provided that after consultation with, and on receiving from that official, the senior naval officer considers it for the benefit of the service about to be performed that such flag should be hoisted, and provided that it is only hoisted or carried within the limits of the Colony.

129. If the senior officer considers it, in any circumstances, undesirable to hoist the flag, he will inform the Governor or other official concerned, of his reasons and will at once report the same to the Admiralty.

130. In the event of a Governor or officer administering the Government of a Colony being employed on a foreign mission in his official capacity, special instructions will be issued in each case as to the flag which is to be carried by the man-of-war in which he may be embarked. In the absence of such instructions the senior naval officer present will exercise his discretion in consultation with the officer proceeding on the mission.

E. *Visits.*

131. Official visits between naval officers and the Governor or Administrator of a Colony will be paid on the following occasions:—

(*a*) On the arrival of one or more of His Majesty's ships at a port at which the Governor is present, between such officer and the senior officer in command of the squadron.
(*b*) On the first arrival at such a port of any Flag Officer or Commodore since taking up his command.
(*c*) On a Governor or Administrator newly appointed assuming office, between him and Flag Officers and Commodores present.

These visits need not be exchanged more than once during the respective tenure of office of the representative and the naval officers mentioned above.

Governors and Administrators will wear uniform when paying official visits to naval officers. On official visits they will wear morning dress with the star of any order they may possess.

132. In exchanging visits,
(*a*) A Governor will always receive the first visit from the senior officer in command of squadron or ship.
(*b*) An Administrator will pay the first visit to all Flag Officers or Commodores and receive the first visit in all other cases.

133. Return visits must be paid within 24 hours.
(*a*) A Governor will return visits in person to all Flag Officers and Commodores.
(*b*) An Administrator will do so in person to all Captains.
(*c*) A Flag Officer or Commodore will do so in person to all Administrators.
(*d*) In all other cases the return visit will be paid by an Aide-de-Camp or other officer.

134. Should the Governor or Administrator find that from indisposition or pressure of business he is unable to return or pay a visit in person, he will depute his Aide-de-Camp or other officer to do so. In like manner should a Flag Officer or Commodore from indisposition or pressure of business be prevented from paying or returning a visit, he will depute his Flag-Lieutenant or other officer not below the rank of Lieutenant. In each case the officer failing to pay the required visit in person will report the circumstances which led to the omission, to the department under which he is acting.

135. Officers acting temporarily in higher civil offices or commands will, in respect of visits, be on the same footing as if they were confirmed in such offices or commands.

136. The senior naval officer present will arrange, when necessary, to provide boats for the Governors [illegible]rators to pay any official visits afloat on their notifying their intention.

Digitized by Google

For the purpose of Regulations 131 to 136:—
(a) the status of the Commissioner, Somaliland Protectorate, and of the British Resident, Zanzibar, is that of a Governor.
(b) the term "Administrator" means the Administrator or Commissioner of a Colony or Dependency acting in subordination to a Governor.

F. *Uniforms.*

. Governors, unless at the time of their appointment they hold the rank of Admiral in the Royal Navy General in the Army or of Air Chief Marshal in the Royal Air Force (in which case they will during their e of office continue to wear their naval, military, or air force uniform), will wear the special uniform ribed for them.

. The class of the Civil Uniform which may be worn by officers in the Colonial Service under the rank vernor is regulated in each Colony by the Uniform List for that Colony which has received His Majesty's val.

). No person is entitled without the consent of the King to wear the uniform attached to any office after s ceased to hold that office. Such consent can only be obtained on the recommendation of the Governor through the Secretary of State, and only in cases where an officer has actually worn the uniform during mure of the office to which it is attached. No retired officer will be allowed to wear any other uniform that which was attached to his office during his tenure of it.

1. The wearing of uniform (or the alternative dress described in Regulation 143) is compulsory on all sions duly prescribed. A white undress uniform has been approved for use in tropical countries in place e ordinary (blue) civil uniform. Its adoption in any Colony is left to the discretion of the Governor. utdoor functions in the day-time officers wearing the blue uniform are at liberty to wear with it the white et worn with the white undress uniform.

2. Only Governors may wear the first class of the white uniform, and they may wear with it, if they so e, the cape forming part of the Governor's special uniform and a helmet bearing a plume similar to that he cocked hat worn with the Governor's special uniform. On special occasions, however, such as the bration of the Sovereign's Birthday or the opening or closing of the Legislature, Governors will wear the ial uniform.
he other classes of white uniform will be worn by persons who are entitled, or have received permission, rear the corresponding class of the ordinary civil uniform.

43. In lieu of civil uniform, officers may wear, on all occasions when uniform is prescribed, ordinary evening s with black breeches (with three buttons and black buckles at the knee), black silk hose, and plain court es.

CHAPTER VI.—CORRESPONDENCE.

A. *Colonial Office.*

44. Governors must address the Secretary of State for the Colonies in all correspondence with His Majesty's vernment. Every such communication, therefore, to whatever public department in this country it may re immediately relate, must be addressed to the Secretary of State for the Colonies, with the exceptions ntioned in Regulations 162 to 176.

145. Despatches are classified and should be dealt with as follows:—
(1) *Numbered* despatches which the Governor is to lay before the Executive Council unless they are not of sufficient importance to require that they should be so laid, or unless there is some special reason to the contrary. In the latter case the Governor should report the matter to the Secretary of State in a confidential despatch. Numbered despatches may be published unless express directions are given to the contrary, but enclosures consisting of correspondence with a Government Department in the United Kingdom should not be published without prior reference to the Secretary of State. Despatches which for local purposes are to be treated temporarily as confidential should be marked "Reserved" after the number. *Circular* despatches and despatches from the Secretary of State marked "*Honours*" are to be treated in all respects as numbered despatches, unless also marked "Confidential" or "Secret."
(2) *Formal Correspondence*, such as schedules and records of telegrams, which should not be numbered.
(3) *Confidential* despatches which the Governor may, if he thinks fit, communicate under the obligation of confidence to the Executive Council or to any officer of His Majesty's Service. No confidential despatch, either to or from the Secretary of State, may be made public without his permission. The Secretary of State will only publish such despatches if he considers it desirable in the public interest, and will as a rule consult the Governor before so doing. Numbered despatches marked "Reserved" will be treated as confidential for a period of six months from the date of the despatch.
(4) *Secret* despatches, the contents of which the Governor is forbidden, without the express authority of the Secretary of State, to communicate to any person other than such members of His Majesty's Service as he considers it essential, in the public interest, to consult or inform.

146. Whenever it may be found necessary to address the Secretary of State confidentially the communication should be marked "Confidential." No reference to a confidential despatch should ever be made in a numbered despatch.

147. The Governor will cause the Secretary of State's despatches addressed to himself, as well as copies of his own addressed to the Secretary of State, whether confidential or not, to be deposited in the Secretariat or other recognised office of record in the Colony or in some other safe building belonging to the Government.

The Governor must satisfy himself that proper arrangements are made for the custody of [illegible]. Any secret despatch which he considers it necessary to retain in his own custody must be [illegible] personally to his successor.

148. The Governor is forbidden to withdraw at any time any despatch or other public docum[illegible]

149. The Governor's despatches should be numbered in succession, commencing annually with [illegible]. Each despatch should be confined as much as possible to a single subject. The paragraphs should [illegible] and the enclosures noted in the margin.

150. Each enclosure should be separately numbered or marked and, if in any foreign lan[illegible] French, should be accompanied by a translation. Connected correspondence should be [illegible] date. In the case of printed documents which can be procured without difficulty, [illegible] be forwarded.

151. Despatches forwarded to the Secretary of State should be accompanied by a schedule [illegible] giving their serial numbers, dates, and subjects, and also by a statement of the numbers and [illegible] despatches which the Governor may have received from the Secretary of State since the previous [illegible] Separate schedules and statements should be furnished for confidential and secret despatches.

152. The Governor's telegraphic despatches, including those of a confidential or secret nature [illegible] purely personal messages, should be numbered in succession commencing annually with a new series [illegible] of all telegrams despatched giving a brief indication of the subjects, should be transmitted by mail [illegible] and secret telegrams should be shown in separate schedules as in the case of despatches.

153. Every legislative Act must be accompanied by a statement from the Law Officer of the [illegible] the effect that in his opinion the Governor's assent may or may not be properly given thereto [illegible] a report from the Governor or from the Law Officer giving all requisite explanation respecting [illegible] the Act and any legal or political question which it may involve. If the Act is based on any [illegible] Colonial statute, or on a model draft ordinance, a reference to that statute or draft ordinance and [illegible] the reasons for any important deviations from the original should be stated; all deviations [illegible] spicuously shown (*e.g.*, in red ink) on a spare copy of the Act; and a comparative table [illegible] Similar information should be furnished in the case of a legislative Act which re-enacts existing [illegible] amendments, or in the case of legislation which is submitted in draft form for approval, and [illegible] table should accompany all purely consolidating legislation.

154. The Secretary of State will not certify signatures other than those of the Governor [illegible] Secretary. It is the duty of the Governor to cause it to be made known that the authentication [illegible] requiring to be certified can only be effected in this manner.

B. *Returns.*

155. All returns, reports, and local publications referred to in the Royal Instructions, or [illegible] tions from the Secretary of State or in these Regulations must be punctually forwarded [illegible] department. A list of the more important returns is given in Appendix 7.

156. The Governor will transmit to the Secretary of State twelve copies of all laws as [illegible] six copies of annual volumes of laws. One copy of each law will be sent direct to each of the [illegible]

House of Lords.
House of Commons.
British Museum.
Bar Library, Royal Courts of Justice.
Law Society.
National Library of Scotland.
Library of Lincoln's Inn.
Library of the Inner Temple.
Library of the Middle Temple.
Library of Gray's Inn.
Library of the Royal Empire Society.
Signet Library, Edinburgh.
Library of the Judicial Department of the Privy Council.

In addition three copies of all laws should be sent direct, as soon as printed, to the [illegible] Trade, and one copy to the Department of Overseas Trade. Copies of laws on special [illegible] distributed as directed in Appendix 7 to Regulation 155.

157. The Governor will also transmit to the Secretary of State six copies of annual [illegible] legislation, such as Rules, Regulations, Orders in Council and Proclamations made under [illegible] laws. (See also Appendix 7 to Regulation 155.)

158. Ten copies of every new compilation or corrected edition of the Colonial Laws [illegible] copies of separate prints of the laws contained in the volumes, will be forwarded to [illegible] (For further distribution see Appendix 7 to Regulation 155.)

159. As soon as possible after the close of each year the Colonial Secretary will cause [illegible] to be completed, and will certify the accuracy of its contents. The Governor will [illegible] to the Secretary of State at least two copies if the book is prepared in manuscript [illegible] six copies if it is printed.

160. The Blue Book shall be accompanied by a report on the social and economic [illegible] of the Colony containing a brief account of the main activities of the Government [illegible]

Digitized by Google

opment of the Dependency during the preceding year, including in particular information as to the al tendency of trade. The report should contain a prefatory historical and geographical note, followed by mation under the headings :—

Government,
Population,
Health,
Housing,
Production,
Commerce,
Wages and Cost of Living,
Education and Welfare Institutions,
Communications and Transport,
Banking, Currency, Weights and Measures,
Public Works,
Justice and Police,
Legislation,
Public Finance and Taxation.

pinions, forecasts, controversial matter, details of merely local interest, and tabular statements other those required for the elucidation of the text should be excluded.

1. **Colonial** Governments should arrange for the interchange of reports on subjects of common interest.

C. *Military and Air Forces.*

2. **Governors** who are actually in command of His Majesty's forces must separate their correspondence the Secretary of State for the Colonies and the Secretaries of State for War and Air, as prescribed in following Regulations 163 to 167.

3. **All matters** which relate to the discipline of the forces, or to the employment of them in any ordinary established service, or to the relief of the forces after their time of local service shall have expired, or to interior economy of His Majesty's land or air forces, will probably form the subject of correspondence with Secretary of State for War or Air, as the case may be, exclusively.

4. **In the event of actual hostilities with any foreign enemy, or of any extraordinary employment of** forces for the maintenance of the public peace, such occurrences must be reported both to the Secretary tate for War or Air, as the case may be, and to the Secretary of State for the Colonies.

5. In the event of its being thought necessary to make or to advise any military or air convention with officer in command of the military or air forces of any foreign Power, a Governor commanding His Majesty's es will at the same time report to the Secretary of State for the Colonies and to the Secretary of State for r or Air, as the case may be, the measures which he may have so taken, or those which he may wish to mmend for adoption.

6. In case it should be necessary, in order to render the Governor's military or air force reports clear, make reference, in his correspondence with the Secretary of State for War or Air, as the case may be, to stions connected with his civil authority, he will in every such case at the same time bring such questions ler the notice of the Secretary of State for the Colonies.

7. As any attempt to define the limits of a Governor's civil and military or air force correspondence may, m the nature of the case, be imperfect and may omit to provide for some unforeseen exigency, he will best et the requirements of the Secretary of State for War or Air, as the case may be, and of the Secretary of te for the Colonies by conducting his civil correspondence exactly as he would conduct it if he possessed military or air force command, and vice versa. The two functions of Governor and of Commander of Forces, though for the time combined in the same person, should be regarded in this respect as entirely arate, and the reports made by the Governor in each capacity should be made precisely in the same manner if that combination of functions did not exist.

8. When a Governor who is not actually in command of His Majesty's forces shall have occasion to report on, or bring under the consideration of the Secretary of State for the Colonies, matters which involve military air force as well as civil considerations, or which require the concurrence or decision of the Secretary of ate for War or Air, he will, if there is an officer commanding military or air forces in the Colony, first com- unicate with that officer respecting the matters in question, and, having obtained that officer's opinion or servations thereon, he will transmit the same, with his own report, to the Secretary of State for the Colonies, d will, in every case, furnish the officer commanding with a copy of any report he may make involving litary or air force considerations. If the officer commanding considers that these reports require the con- leration of the Secretary of State for War or Air, he will forward the duplicates with his observations by the me mail which conveys the original report to the Secretary of State for the Colonies.

9. Similarly, under the King's Regulations, when the officer commanding the troops or air force in a lony desires to bring to the notice of his military or air force superiors any matter which may involve civil well as military or air force considerations, he will first communicate with the Governor with a view to taining his opinion thereon. He will transmit with his own report any opinion or observations he may thus tain ; and will in every case furnish the Governor with a copy of any reports he may make on subjects her than military or air force discipline and routine. If the Governor considers that these reports require e consideration of the Secretary of State for the Colonies, he will forward the duplicates with his observations the same mail which conveys the original report to the Secretary of State for War or Air, as the case may be.

D. *Naval.*

10. The Governor or, in his absence, the Governor's Deputy, if one has been appointed. will write in his wn name to any senior naval officer (that is to say, the senior officer then within his immediate reach), holding

Digitized by Google

the rank of Flag Officer, Captain, or Commander, but will communicate with any senior officer through his private secretary. In no case will he so communicate through the Colonial Secretary.

171. Any notice or direction which the Governor may have occasion to convey to the commander of a foreign vessel in the waters of the Colony will be transmitted through the officers of the Colony and not through the officers of His Majesty's Navy, whose intervention should not be asked unless directions forwarded through the ordinary channel should fail to produce their effect.

E. *Shipping.*

172. Under the Imperial Acts relating to merchant shipping certain duties in relation to merchant are imposed on Colonial officers. Detailed instructions with regard to general duties in connexion chant ships and seamen are contained in the "Instructions for the use of Officers in British Possessions (Merchant Shipping and Seamen)" issued by the Board of Trade; and instructions relating to the registry of ships are contained in the "Instructions to Registrars of British the Commissioners of Customs with the approval of the Board of Trade.

173. At the end of each year the Colonial officer performing the duties of Registrar of Shipping and transmit to the Registrar-General of Shipping and Seamen, Tower Hill, London, E.1, as soon to the 31st December showing:—

(*a*) the names and particulars of all ships on the register of the port on the previous 1st
(*b*) the names and particulars of all ships registered at the port during the year or since register has been closed. In the latter case, the cause of closing the register should At the end of the list an abstract should be given of the number and tonnage of vessels on the port on 31st December. It is important that this list should be transmitted as early in the month of January.

174. Notice of any new lighthouses, buoys, beacons, or radio beacons placed or erected on the Colony, and of any alterations in those already existing, will be forwarded as early as possible by to the Hydrographic Department of the Admiralty.

These notices should be given in the form shown in Appendix 8, which in the case of buoys or be amended as necessary.

175. Any information of interest to navigators, such as the information or discovery of new or currents, should also be forwarded as early as possible by the Governor to the Hydrographer of the Admiralty.

176. For the purposes of the Wreck Abstract which is presented annually to Parliament, particulars casualty to shipping on the shores of any British possession, or to any British shipping which information can be obtained, should be forwarded by the proper officer in the Colony Secretary, Mercantile Marine Department, Board of Trade, as soon as possible after the end Forms for the purpose of making such returns will be supplied by the Board of Trade on

F. *Governments of Dominions, &c.*

177. Communications from a Colonial Government to the Governments of the Dominion Commonwealth of Australia, the Union of South Africa, and the Irish Free State respectively to:—

The Secretary of State for External Affairs, Ottawa,
The Prime Minister of the Commonwealth of Australia, Canberra,
The Minister of External Affairs, Cape Town (when the Union Parliament is in session),
(when the Union Parliament is in recess),
The Minister for External Affairs, Dublin,

and should be signed by the Colonial Secretary or equivalent officer.

178. Communications to the Government of New Zealand should be addressed to the Prime Minister of New Zealand, Wellington, and should be signed by the Governor.

179. Communications to the Governments of Newfoundland, Southern Rhodesia, the United States should be addressed to the Governor concerned and should be signed by the Governor.

G. *Consular.*

180. Communications from the Governor to a British Consul-General will be signed by the Governor.

181. Communications from the Governor to a British Consul, or to a foreign Consul, should be signed by the Colonial Secretary.

182. Communications from a Consulate to the Governor should be signed by the senior Consular officer.

H. *Individuals.*

183. Any person in a Colony who has any representations of a public or private nature to make to the Government should address them to the Governor through the Colonial Secretary. The Governor is to consider and act upon each such representation as public expediency or justice may appear to require, with the assistance in certain cases of his Executive Council; and may take thereupon, or if public advantage may appear to require it, he will refer the matter to the Secretary of State.

184. Any person in a Colony has the right to address the Secretary of State, if he does so in case he must transmit his communication, unsealed and in *triplicate, to the Governor.

*In quadruplicate in the case of the Leeward Islands

Digitized by Google

n due course to the Secretary of State. Every letter, memorial, or other document which may by the Secretary of State from a Colony otherwise than through the Governor will be referred Governor for his report or returned to the sender.

preceding rule requiring transmission of correspondence with the Secretary of State through or is based on the strongest grounds of public convenience, in order that all communications may rified, as well as reported on, before they reach the Secretary of State. It extends therefore to ations relating to public affairs as well as to the concerns of the writer, and to those from public bodies.

itions addressed to the King, or petitions addressed to the King in Council (other than petitions or petitions for special leave to appeal from decrees, orders, sentences or decisions of courts, judges, l officers), and memorials to public officers or departments of His Majesty's Government in the ngdom, must be in like manner sent to the Governor for transmission to the Secretary of State.

ie Governor shall transmit to the Secretary of State with all reasonable despatch every communica- ved by him in accordance with Regulations 184 to 186, accompanied by such report as its contents ear to him to require.

CHAPTER VII.—FINANCE.

A. *Accounting Officers.*

The Treasurer, besides being the Chief Financial Adviser to the Governor, is the chief Accounting of the Colonial Government, and subject to these Regulations and to such instructions as may with hority of the Secretary of State be approved by the Governor, the financial and accounting operations Government are under his general management and his supervision, but it is also the duty of the Colonial ry, the Auditor, the heads of departments, the sub-accountants and all accounting officers to take care ese Regulations are duly observed.

term sub-accountant means an officer who is entrusted with the receipt, custody, and disbursement lic money and who is required to keep one of the recognised cash books, the transactions in which are uently embodied in the final accounts rendered by the Treasurer.

It is the duty of the Treasurer in his capacity as Chief Accounting Officer :—

(i) To see that the proper system of account is established in every department of the Colonial Government ;

(ii) To exercise supervision over the receipts of public revenue and as far as possible to secure its punctual collection ;

(iii) To bring promptly to account, under the proper heads and items, all money, whether revenue or other receipts, paid into the Treasury or accounted for to him ;

(iv) To see that proper provision is made for the safe keeping of all public money and stamps ;

(v) To exercise supervision over all the officers of his department entrusted with the receipt or expenditure of public money, and over the sub-accountants, and to take precautions, by the maintenance of efficient checks, against the occurrence of fraud, embezzlement, or carelessness ;

(vi) To supervise the expenditure and other disbursements of the Government ; to take care that no payment is made which is not covered by proper authority, expressed or referred to on the voucher relating to it ; and, in case of any apparent extravagance or of any apparent defect in the provision for a charge owing to the exhaustion or absence of a vote, to call the attention of the Colonial Secretary in writing to the matter ;

(vii) Promptly to charge in his accounts under the proper heads and items all disbursements of the Government, whether expenditure or other payments.

(viii) To render the accounts for audit and to prepare the Financial Statements and Returns.

0. The Treasurer will from time to time cause surprise inspections to be made of the accounts of his accountants. He will report to the Colonial Secretary any material irregularity connected with the ic accounts that may have been brought to his notice.

1. Heads of departments, sub-accountants and all accounting officers are personally and pecuniarily onsibile for the due performance of the financial duties of their departments or offices, for the proper ction and custody of all public money receivable by them, and for any inaccuracies in the accounts rendered hem or under their authority.

he responsibility of the Auditor for checking and reporting any shortcomings in connection with the lic accounts or finances does not absolve any officer from his responsibility for complying, or securing pliance, with instructions within the scope of his own authority. No officer will be relieved from any ion of his responsibility should he depute to his subordinates the performance of duties which he should e performed himself.

92. The Auditor and his deputies are at all times entitled to have access to all books, records, or returns ting to accounts, and all accounting officers will give them every facility for inspecting such documents.

93. It is the duty of all accounting officers promptly to reply to any queries addressed to them by the litor, giving fully the particulars or information desired.

B. *The Estimates.*

94. Annual Estimates of the revenue and expenditure of a Colony will be submitted by the Colonial Secre- y to the Governor at such a date as will admit of their consideration by the Legislature, their transmission the Secretary of State, and the receipt of his reply by post, before the beginning of the year to which the imates relate. Where local circumstances render this impossible, the Estimates should be transmitted so to reach the Secretary of State as soon as possible, and in any case before the beginning of the year.

Digitized by Google

195. The Estimates will show against each item of revenue or expenditure the amount estimated for the coming year and the amount of the approved Estimate of the current year. Where the expenditure of a department is provided partly by annual votes and partly by a civil list or other special law, the amount provided by law will appear in an inner column, the total of which should be added to that of the items not so provided. The Estimates will thus show under each head every item which is expected to come in course of payment during the year of estimate, including not only those which are submitted to the Legislature for discussion and appropriation but also those which, being already provided, are included in the Estimates for information only. The law authorising the provided expenditure should be named in each case.

196. The Abstracts preceding the body of the Estimates will show the totals of all the heads in the Estimates and will have four columns, one for the actual revenue or expenditure of the last completed year, one for the approved Estimates of the current year, one for revised estimates of the same, and one for the estimated revenue or expenditure of the coming year.

197. The Estimates of Revenue should, except in the case of Government railways, include the gross receipts of the Colonial Government, except repayments of advances, proceeds of loans appropriated by law for special works, receipts from sales of investments, deposits, and remittances. They should include all fees, fines, and rents payable into the Colonial Treasury, any amounts payable to officers in respect of such receipts being provided for in the Estimates of Expenditure under the sub-divisions entitled "Personal Emoluments."

198. The revenue should be arranged under comprehensive heads. It falls generally into four broad classes:

(1) Duties, taxes, licences, &c.;
(2) Receipts for, or in aid of, specific Government services—such as fees or hospital receipts;
(3) Receipts on account of undertakings of a commercial character; and
(4) Revenue from Government property, such as land, houses, and investments.

It will be convenient to have several heads for each of these classes, but care should be taken that no head comprises items coming under different classes, and that revenue derived from taxation is easily distinguishable from revenue not so derived.

199. Stamp duties should not form a separate head. If the same description of stamp is sold for different revenue purposes, and there is thus no means of distinguishing the use to which the stamp is put, the total receipts from such stamps should be provided for under a separate sub-head "Stamps sold for various revenue purposes" under the head for licences, or that for payments for specific services, according to the nature of the bulk of the receipts.

200. The proceeds of the sale of Government lands and premiums on leases should be kept distinct in the Estimates from the total revenue from other sources.

201. In Colonies where a deficit is to be met by a grant or loan from Imperial funds, the estimate of the amount to be so received should appear under a separate head of revenue following and distinct from the total revenue receipts from other sources; and in the case of such loans any anticipated repayments should similarly appear under a separate head of expenditure.

202. If the Colony is receiving a grant or loan from Imperial funds to meet certain specific expenditure, the estimate of the grant or loan should, in like manner, be shown under a distinct head of revenue, and the expenditure in respect of which it is made should be shown also, if possible, under a separate head of expenditure below the total ordinary expenditure of the Colony.

203. There should be no head for "Arrears of Revenue." Interest received on arrears of revenue should be brought to account under the same head as the revenue of which the arrears accrued.

204. The Estimates of Expenditure should be framed so as to show as nearly as possible the amounts which it is expected will actually be spent during the year. No deductions will, however, be made from the total of the Estimates, or of any head, on account of probable savings on salaries owing to the absence of officers on leave, or on account of any general presumption that the expenditure will be kept within the estimate.

205. Each head of department is responsible that all services that can be reasonably foreseen are included in his departmental estimate and that no unauthorised increase of salary is inserted therein.

206. Under the heading for each department there will be two sub-divisions—"Personal Emoluments" and "Other Charges."

207. Subject to the provisions of Regulation 235 all items whatsoever of personal emoluments to public officers will appear under "Personal Emoluments", which will, therefore, include (besides salaries) personal duty, entertainment, and house allowances, allowances in lieu of quarters, fuel, and light, clothing allowances paid in money, fees and percentages or commissions. Each allowance will be described in a separate line, and not included with the salary, but the whole of the personal emoluments of each officer in respect of each department will be shown together. Pensionable emoluments should be distinguished from those not pensionable by a star or other indication.

208. Where salaries are increased by regular increments, the minimum and maximum salaries, with the increment, should be stated within brackets, the amount payable within the year being inserted in the estimate.

209. Where an officer receives emoluments under more than one head the fact will be indicated by cross references or explanatory footnotes. Any pension or compensation allowance, or other emolument in respect of public service, including the provision of an official residence, will be similarly shown.

210. Allowances made in reimbursement of public expenses, such as transport allowances, travelling allowances, and allowances for office or clerical expenses, will be placed under "Other Charges."

211. The sub-division "Other Charges" will include all services other than personal emoluments which can be properly apportioned to the particular department.

212. Every head of expenditure will include, as far as possible, all the items relating to the particular department, so as to show clearly the total estimated cost of that department during the year. Provision should be

Digitized by Google

made, under the heads concerned, for the charges on account of services rendered by other Government departments. Where services of a general character cannot be divided and charged to different departments, they will be provided for in separate sub-heads under the head "Miscellaneous."

213. Each head of expenditure will be divided into such sub-heads as may be decided in the case of each Colony. The total personal emoluments of each department will make up one sub-head and small items under "Other Charges" not of a distinctive character may be grouped under a sub-head of "Incidental Expenses." Items not so grouped will be shown as separate sub-heads.

214. No items of receipt or expenditure will be included under the head "Miscellaneous" which can appropriately be placed under any other head, and, if necessary, new sub-heads will be opened for any such items.

215. No provision is to be made for "Unforeseen Expenditure"; any item for "Contingencies" or for "Miscellaneous" under the head "Miscellaneous" should be strictly confined to petty and casual charges which are foreseen but which are too unimportant to be provided for separately.

216. New heads or sub-heads should be opened for items of receipt or expenditure not properly falling within any of those already appearing in the Estimates

217. The total estimated expenditure of the year should not in ordinary circumstances be allowed to exceed the total estimated revenue. In the case of an anticipated excess a footnote should explain in what manner it is to be met, and in the Appropriation Law the expenditure for the year should be made a charge on the revenue of the year "and other funds of the Colony."

218. The estimates of the charges on account of public debt should be arranged in the chronological order of the loans provided for.

219. There will be two heads for public works in addition to that for the establishment of the Public Works Department. All annually recurrent services will be placed under the first of these heads: and other works under the second. There will thus be three heads of expenditure administered by the Public Works Department, viz.:—"Public Works Department", "Public Works Annually Recurrent", and "Public Works Extraordinary."

220. In the case of works not annually recurrent which will extend over more than one year, there should be shown not only the estimate for the year, but also the original estimate for the whole work, the revised estimate (if any), the total amount actually expended so far as accounts are complete, and the total amount likely to have been expended on the work up to the beginning of the year of estimate.

221. The Estimates should be accompanied by explanations respecting every item of an unusual nature therein comprised and of the difference under each item between the proposed expenditure or anticipated revenue, and the approved estimate for the preceding year, as shown in the parallel columns. Twelve copies of the Estimates should be sent to the Secretary of State or, where they are not printed, two copies at least.

222. The Estimates should be accompanied by a statement of the assets and liabilities of the Colony at the close of the last completed year of account, and a statement, partly estimated, of the assets and liabilities at the beginning of the year to which the Estimates relate.

223. The Appropriation Law will not include sums specifically provided by law, but only such sums as require to be voted by the Legislature for the service of the year, and will appropriate these sums under each head of expenditure in the Estimates. In cases of expenditure in excess of these sums, only the net excess on each head will require supplementary appropriation, but Appropriation Accounts, showing the excesses and savings on each sub-head of the Estimates, should be laid before the Legislature and the Secretary of State.

224. The Governor will not propose to the Legislature the execution of any important public work for which he has not obtained the previous sanction of the Secretary of State.

225. Special cases of pressing emergency may arise in which it is impossible to obtain the previous requisite sanction of the Secretary of State for a proposed work. In such a case the Governor will submit his proposals to the Legislature, and, having obtained their approval, will seek the sanction of the Secretary of State at the earliest opportunity.

C. *Receipts.*

226. All receipt entries in the accounts must be vouched for on the form prescribed by law or regulation.

227. Except where otherwise provided and in cases where receipts are not required (such as Customs duties or sale of stamps), accounting officers must give receipts, from books of counterfoil forms bearing printed consecutive numbers, for every sum paid to them. Where such a check can be obtained the counterfoils should be signed by the payers and, in cases in which revenue is payable by adhesive stamps, the stamp must be effectually cancelled. Numbered counterfoil receipt books will be supplied by the Treasurer, who will be responsible for their custody and to whom the counterfoils will be returned when the receipt forms are exhausted or as may be otherwise directed. Counterfoil books should not be cut or divided.

228. All licences, permits, certificates, passage orders, and other documents for which payments are received will be issued from counterfoil books printed with consecutive numbers.

229. In cases where court fees, licences, and similar receipts are collected by adhesive stamps the stamps will be affixed by the persons paying in such revenue and effectually cancelled by the proper officer. The cancellation should whenever possible be performed by an officer other than the officer employed to sell the stamps.

230. All regular collectors of revenue, other than the Treasurer and the sub-accountants, who receive any duties, taxes, licences, fees, rents, or other public money whether forming a portion of the Colonial revenue or not, are required to pay the whole amount of such money, daily or at the earliest possible opportunity, either into the bank to the credit of the Treasurer, or into the Treasury, or to a sub-accountant, obtaining a receipt for the money so paid in.

(vi) The Secretary of State's approval of expenditure incurred by the ...

Digitized by Google

246. Before the commencement of each year a complete Schedule will be prepared by the Treasurer of the personal emoluments and other public services, provided for in the Estimates for the year, over which the Government does not desire to reserve special control. This Schedule will be annexed to the General Warrant of the Governor, authorising the payment by the Treasurer monthly, or at such periods as may be necessary during the year, of the services therein enumerated. This General Warrant will be prepared and signed in triplicate and copies filed in the Colonial Secretary's Office, the Treasury, and the Audit office.

247. When an officer considers it necessary to incur expenditure on a service for which there is provision in the Estimates but the expenditure on which has not been authorised in the General Warrant, he will, as soon as possible and before incurring the expenditure, submit a Requisition in triplicate stating the whole extent and estimated cost of the service required, and giving all details as far as he is able. In the case of any public works, plans, specifications, tenders, and estimates, as far as practicable, should accompany the Requisition.

248. The head of the department responsible for the expenditure will examine the Requisition, fill in from his departmental vote account the statement of expenditure already incurred or authorised, countersign it, and forward it to the Treasurer for submission to the Governor.

249. It is the duty of the Treasurer on receipt of a Requisition to satisfy himself that the expenditure for which authority is required is sufficiently provided for in the Estimates, and that it is proposed to be charged against the proper head and sub-head; that the particulars given in the Requisition are accurate and sufficient for the guidance of the Governor in considering the propriety of the expenditure, and that all regulations which may affect the duty of the officer concerned in respect of the Requisition have been complied with. He will obtain from the officer any information that may be necessary for the assistance of the Governor, and will return the Requisition for amendment, if incomplete or indefinite. In forwarding the Requisition, the Treasurer will advise as to the funds available for meeting the proposed expenditure, having due regard to the whole of the services which appear likely to be chargeable against the sub-head in the course of the year. The three copies of the Requisition, with the Governor's allowance or disallowance noted thereon, will be returned to the Treasurer. If approved, it will be sufficient authority for the expenditure to be incurred, and one copy will be retained by the Treasurer and another sent to the Audit Office. The third copy will be sent to the head of the department from which it was received for record and reference.

250. Should the expenditure authorised upon any Requisition be found insufficient, the head of the department requiring authority for further expenditure will, so soon as he foresees the necessity therefore, forward to the Treasurer a supplementary Requisition for such further expenditure, drawn up in the same form as the original Requisition and accompanied by a memorandum explaining the necessity for the excess.

251. In any exceptional case where it is manifestly for the benefit of the public service that expenditure should be immediately incurred, and time does not permit of authority being obtained in the usual way, an officer may, on his own responsibility, incur the expenditure; but he will at once forward a Requisition as above provided with a covering memorandum explaining the reasons which induced him to depart from the ordinary course. In every such case he will be held personally liable for the expenditure in the event of the payment not being finally approved; and any items which may appear unnecessary or extravagant will be disallowed and surcharged against him.

252. All payment entries in the accounts must be vouched for on the prescribed form.

253. Vouchers for all salaries, allowances, and other services included in the General Warrant will be delivered duly certified by the heads of departments to the Treasurer, or, in the out-stations, to the nearest sub-accountant, three clear days at least before the last day of public business in each month. Any vouchers delivered after the date prescribed will be liable to be held over until the pay-day of the following month. In the last month of each financial year the vouchers for salaries, allowances, and pensions should be delivered not later than the 26th of that month. Officers whose salaries do not exceed £100 a year may be paid weekly or half-monthly.

254. All travelling and transport allowances are granted in respect of expenditure actually incurred on the public service, no part being intended as a personal emolument to any officer.

255. In the event of any unauthorised payment being made in consequence of an incorrect certificate on a voucher, the certifying officer will be held responsible for the same, and the amount will be surcharged against him.

256. A Special Warrant will be required for all payments on account of services not included in the Estimates, even though provided by law, and for payments in excess of the amounts provided in the Estimates. A Special Warrant will also be necessary if any addition is made to the rates of personal emoluments or to the number of posts authorised in the Estimates even though the expenditure on the sub-head will not be thereby increased. Special Warrants shall be prepared and signed in triplicate, as in the case of the General Warrant, and copies filed in the same offices. The foregoing procedure does not apply to expenditure incurred by the Crown Agents in England on instructions received from the Secretary of State.

257. Separate vouchers will, as far as possible, be used for separate sub-heads and for the payment of different services, especially in cases where each service has been separately authorised.

258. All vouchers will contain full particulars of each service, such as dates, numbers, quantities, distances and rates, so as to enable them to be checked without reference to any other document.

259. The signature of the head of a department certifies to the accuracy of every detail on the voucher. He will therefore be held responsible that the services specified have been duly performed, that the prices charged are either according to contracts or approved scales, or fair and reasonable according to current local rates, that authority has been obtained as quoted, that the computations and castings have been verified and are arithmetically correct, that the persons named in the vouchers are those entitled to receive payment, and that stores purchased have been duly taken on charge.

Digitized by Google

260. When supplies are furnished or work done under agreement or contract, there will be attached to the voucher a certificate that the payments are in accordance with the terms of the contract or agreement, that, as regards supplies, the articles have been received, and, in the case of work, that it has been properly done. In the case of a payment on account no more will be claimed than the cost of the work certified to have been performed. When a deduction is made from the amount payable on a contract in respect of a penalty or fine, the net sum only will be paid.

261. In cases where public offices present claims for small payments made by them, sub-vouchers, in the shape of actual receipts, must be produced whenever practicable. When sub-vouchers cannot be obtained the officer will certify that the charges have been incurred solely upon the public service and actually paid by him.

262. Whenever possible payment of wages will be made by an officer of the Treasury and witnessed by another public officer or other responsible person approved by the Treasurer, who will sign the sheets as witness to the payments having been made to the persons entitled to the money. Money should not be paid to unofficial persons for distribution in wages.

263. The Treasurer, before paying any claim, will satisfy himself that:—

(i) The payment will not cause an excess on the amount provided in the Estimates or in special warrants, on the sub-head to which it is chargeable;

(ii) The expenditure has been authorised by Warrant or approved Requisition, as quoted on the voucher;

(iii) The information furnished on the voucher is correct in all particulars and that the certificate is signed by the proper officer;

(iv) All proper deductions from salaries or pensions on account of contributions, repayment of advances, remittances, or other liabilities have been duly made.

Sub-accountants making payments for the Treasurer will similarly satisfy themselves in regard to these points so far as they are in a position to do so.

264. Payment will be made only to the persons named in the vouchers, or their legal representatives, in whom signed receipts (duly stamped, where necessary) must be taken at the time of payment. Where the recipient is unable to write, he will make his mark in acknowledgment of receipt, the act being witnessed and the receipt countersigned by some person other than the paying officer. Where this is impracticable, as occasionally in the case of payments to a number of labourers, the paying officer will certify that the payments have been actually made, such certificate being countersigned by some person other than those named who was present at the time of payment. When payments are made to persons other than those named in the vouchers or to the agents of officers absent on leave, the authorities under which they are made (such powers of attorney, and letters of administration) shall be registered in the Treasury and notified on the roll except where the law permits of a declaration being substituted for letters of administration in cases of small sion to small estates. In the case of an officer absent on leave, the amount of whose salary is paid to his a certificate that the officer was alive on the date to which salary is claimed must be furnished to the Treasurer and attached to the payment voucher. When an alteration occurs in the amount expressed to be paid the initials of the recipient should be written against such alteration. A receipt given by an officer for money paid to him by way of imprest, or in adjustment of an account where he derives no personal benefit therefrom is not, unless specially required by local law, chargeable with stamp duty. Payments of subsistence and allowances in reimbursement of expenses actually incurred are likewise exempt.

E. *Classification and Control.*

265.—(1) When the annual Estimates have been passed by the Legislature and approved by the Secretary of State, and the Appropriation Law allowed by His Majesty, the expenditure of the year must be limited and arranged. Should any further disbursements on account of the service year be required, which could not have been foreseen, cannot be postponed without detriment to the service, and cannot appropriately be charged to an existing sub-head of the Estimates or will cause excess thereon, approval by the Legislature and the Secretary of State of the necessary additional provision disbursements will be sought in the following manner:—

(*a*) Where the provision for the supplementary expenditure is not in excess of an amount the Secretary of State in the case of the individual Colony, and the supplementary expenditure not of such a nature as to raise some question of principle or involve a breach of some or some previous ruling by the Secretary of State, the Governor may on his personal give his sanction to such supplementary expenditure being incurred, subject to the the amount of such provision in a Schedule of additional provision for the quarter (or period as may be adopted in the case of the individual Colony) in which such sanction

(*b*) In all other cases, the Governor will, at the earliest possible opportunity and if practicable any expenditure is incurred, submit an estimate of the supplementary expenditure to the Legislature and the Secretary of State and obtain their approval of it. The provision so approved will be included in the next Schedule of the year.

(*c*) The Schedule for the quarter (or other shorter period) will thus include under heads all provision for expenditure in addition to that provided for in the Estimates Schedules for the year, which has during that period been approved by the Legislature Secretary of State or has been authorised by the Governor in anticipation of the Legislature and the Secretary of State. It will be despatched to the Secretary later than one month after the close of the period to which it relates, but in any case of the financial year. In the event of the Legislature not having dealt with it when to the Secretary of State, the resolution of the Legislature upon it will be reported of State subsequently as soon as possible.

(2) If after the close of the financial year it is found that supplementary expenditure has that year which has not been included in any Schedule, and the Governor considers that

Digitized by Google

should be admitted as a charge to public funds, he will as soon as possible submit a statement of such expenditure to the Legislature and the Secretary of State for their approval of its being so charged.

266. If the supplementary expenditure causes an excess on a head, such excess should ultimately be covered by a supplementary Appropriation Law.

267. The Governor is not authorised to make any addition to the fixed establishment of the Colony nor to alter the appropriation of the established salaries of any public department, either as regards the number of appointments, or the rates of salary and emoluments, without the previous sanction of the Secretary of State

268. The Estimates form the basis of the accounts of the year to which they relate, and the classification and sub-division of the accounts of revenue and expenditure must accord with the detail of the Estimates.

269. It is the duty of a head of a department to watch the expenditure of his department with reference to the amounts provided in the Estimates, and to report at once through the Treasurer to the Colonial Secretary whenever it may appear that the amounts provided will prove insufficient for the service of the year. Whenever the Treasurer makes any charge against a vote by transfer from the Crown Agents' account or the account of another department, he will immediately notify the head of the department responsible for the vote, who will post his vote account accordingly.

270. If charges are made against a head which, although apparently chargeable to that head, do not clearly come within the meaning of any of the sub-heads, they should be brought by the Treasurer under the notice of the head of the department concerned and of the Colonial Secretary, with a view to the insertion of an additional sub-head in the accounts.

271. The authority for expenditure conveyed by an Appropriation Law lapses at the end of the financial year to which it relates, and if further expenditure is necessary for the completion of any service it must be provided for in the Estimates, or in a Schedule of additional provision, of the year in which the sum will actually be expended. The authority conveyed by warrant and requisitions similarly lapses on the last day of the financial year in which they are issued and no payments may be made after that date, except under the authority of Warrants or Requisitions issued for the service of the ensuing financial year.

272. The date of receipt or payment governs the date of the record of the transaction in the accounts. In no circumstances may payments be made before they are due for the purpose of utilising an anticipated saving on a sub-head, nor may the unexpended portion of any sub-head be drawn from the Treasury for the purpose of setting it in reserve to meet impending payments, or to be carried to a deposit or suspense account. On the other hand, expenditure properly chargeable to the account of a given year must, as far as possible, be met within the year, and must not be deferred for the purpose of avoiding an excess on the amount provided in the Estimates.

273. Where any officer, department, or board administers on behalf of the Government any commercial or industrial enterprise, or any service involving receipts and payments, the whole of such receipts and payments shall, excepting where otherwise authorised by the Governor with the approval of the Secretary of State, be accounted for to the Treasurer, and included in his monthly and annual accounts; and the estimates of the department will be prepared accordingly.

274. When a personal advance in anticipation of salary is allowed, it will be debited as an advance to the recipient and not to the vote for his salary. Any advance made to an officer is to be notified to the head of his department, who will take care that proper arrangements are made for repayment and that no salary is subsequently paid unless such arrangements have been made and are complied with.

275. In accounting for the purchase or sale of securities on account of the Colonial Government, the cost price or price realized will be entered under Investments or Investments Realized "below the line," that is, following after and distinct from the entries relating to revenue and to expenditure charged against revenue. Any profit on sale as compared with the value at which the securities sold appear in the accounts will be carried to current revenue and any loss charged to expenditure.

At the close of each financial year, each of the securities held on account of the Colonial Government will be valued at the current middle market price in London on the last working day of the year, and the value assigned to each security in the accounts will be adjusted so as to correspond with that price. The amount by which the new value exceeds or falls short of the old value will be carried to the credit or debit of an Investments Adjustment Account, and the balance of that account will be carried to revenue or charged to expenditure.

Where securities are held on behalf of a fund so that they belong to the fund and not to the Colonial Government, a similar procedure shall be followed, but the gain or loss will accrue to the fund and not to the Colonial Government.

When securities are transferred from one fund to another fund in the custody of the Government, they shall be so transferred at the current middle market price in London at the date of transfer.

276. If a Colony receives a grant or loan from Imperial funds to meet certain specific expenditure, the grant or loan when received shall be brought to account below the line, and payments on the service charged to expenditure above the line. At the end of each month, an amount equal to the amount which has been charged as expenditure during the month on the service, or if the grant or loan is only to meet a part of the expenditure, then such part of that expenditure as ranks for assistance from Imperial funds, shall be debited to the below the line account and credited to Revenue.

277. Any necessary expenditure on services of a confidential nature, the purpose and particulars of which cannot be divulged, will be specially reported to the Secretary of State and will be supported in the accounts by the Governor's certificate of payment and declaration that he has satisfied himself that the money has been properly expended.

278. Unless the amount involved does not exceed the limit up to which the Governor has been authorized to sanction on his own authority such writing off, abandonment, or remission, and neither fraud nor negligence on the part of an officer is involved, the authority of the Secretary of State is required

Digitized by Google

(*a*) for the writing off of any loss of public money or stamps, or
(*b*) subject to the provisions of Regulation 241, for the abandonment or remission of any claim for money due to the Government, or
(*c*) subject to the provisions of Regulation 345, for the writing off of any sum which has appeared as an asset in a previous account.

F. *Loan Expenditure.*

279. The complete authority requisite for expenditure which is to be met by loan consists of an enactment of the Legislature and the sanction of the Secretary of State. This is normally secured by the passing of the Law authorizing the raising of the loan and the expenditure of the money so raised.

280. Where the law authorizing the raising of the loan does not specifically authorize the execution of the particular works contemplated, and the amount to be expended upon each, those amounts require the sanction of the Legislature and the Secretary of State.

281. In cases where sufficient loan funds are not immediately available and the expenditure must therefore be met in whole or in part out of current revenue or surplus balances subject to reimbursement when the contemplated loan has been raised, such expenditure will be charged as an advance pending reimbursement. The amount to be advanced in any year will require the sanction of the Legislature and the Secretary of State.

282. The anticipated loan expenditure during the year will not appear in the body of the Estimates but a full statement of such expenditure, including a schedule showing the salaries of any staff specially engaged, should be appended to the general Estimates of the Colony, and receive the approval of the Legislature and the sanction of the Secretary of State. In the case of expenditure on a public work, the particulars mentioned in Colonial Regulation 220 should also be given.

283. When the statement referred to in the preceding Regulation has been approved by the Legislature and sanctioned by the Secretary of State, the loan expenditure of the year must be held to be definitely limited and arranged. Should any further disbursements during the year be required, the approval of the Legislature and the sanction of the Secretary of State will be necessary.

284. The authorities mentioned in the preceding Regulations 279–283 are addressed solely to the Governor and before the Treasurer makes any payments in respect of loan expenditure he requires the Governor's authority, which should be conveyed to him by Loan Warrants under the hand of the Governor or of the Colonial Secretary signing "by command".

G. *Remittances and Imprests.*

285. All payments due by a Colonial Government to public departments or other creditors in the United Kingdom, and, unless otherwise authorised, all payments due to other Governments, shall be made through the Crown Agents for the Colonies.

286. The Crown Agents shall be kept continuously in funds by the Treasurer, whose duty it is to watch the account of the Colony with the Crown Agents, to be prepared to meet their current requirements and to notify them in good time if local circumstances make it necessary to arrange for temporary accommodation in aid of the Government's account with them.

287. The maximum cash balance which may be retained by sub-accountants will be calculated upon their average current requirements and fixed by authority of the Governor, and the Treasurer will be responsible for seeing that such balances do not exceed their authorised limits.

288. The cost of remittance of salaries or pensions not drawn through an agent of the Colony will be deducted from the amount remitted.

289. If it is necessary for any officer other than a sub-accountant to have at his disposal, for disbursement on the public service, money for which vouchers cannot be presented direct to the Treasurer or a sub-accountant for payment, he will receive an imprest of such amount as the Governor may sanction.

290. The Governor's sanction will be conveyed by Imprest Warrant, and the Treasurer will be held responsible that no imprest is made without such Warrant, and also for seeing that all imprests are duly accounted for in accordance with the terms of the Warrant covering them. The Governor may give a general Imprest Warrant to the Treasurer authorising him to make imprests, as may be necessary, for any duly authorised service.

291. Imprests are not to be charged in the accounts as final expenditure, the actual payments only out of such imprests, being so charged. Cash payments made by the Treasurer or his sub-accountants by way of imprest will be entered in the cash book and totalled with the rest of the payments in balancing it. Imprests will not be treated by the Treasurer as "Advances" or "Remittances" but will be accounted for, below the line, under a separate head "Imprests." The imprests and the amounts of the authorised payments accounted for will be posted to a personal imprest account of the officer concerned.

H. *Custody of Public Money.*

292. Wherever possible, the Governor will employ one or more of the banks in the Colony for the custody of public money either on current account or on deposit. He will be responsible for seeing that effect is given to any instructions from the Secretary of State for limiting the amount of public money that may be at any one time in the custody of a bank. He will communicate such instructions to the Treasurer, who will be responsible for their strict observance, and also to the Auditor, whose duty it will be to report at once to the Governor for the information of the Secretary of State, if he should find that the prescribed limit has been exceeded.

Digitized by Google

293. The Governor will take care that a secure fireproof vault or safe is provided for the custody of money not in the charge of a bank. The door of such vault or safe will be furnished with three different locks, the keys of which will be kept in the charge of the Treasurer and such two other principal officers of the Government as the Governor may appoint.

294. The Treasurer will keep in his own immediate charge only such sums of money, not exceeding a certain fixed maximum, as may be necessary to meet current cash disbursements.

295. The strong vault will on no occasion be opened, nor will any money be deposited therein or withdrawn therefrom, except by the three officers entrusted with the keeping of the separate keys, and on every such occasion they will sign a joint record of every sum deposited or withdrawn, which record will be kept in the vault.

296. All cash received by public officers will be deposited as soon as possible in the safe or vault provided for the purpose, or paid into a bank. Negligence in this respect will throw the entire responsibility for any loss upon the officer concerned. No public officer shall keep or allow to be kept in any Government safe under his charge any money except public money or such as by virtue of his office he is bound to receive and account for.

297. Where public money is to be paid into a bank, the Treasurer and the sub-accountants so instructed will make such payments daily. Private money will in no circumstances be included in a public banking account.

298. The Treasurer's bank account must not be overdrawn, nor any temporary advance obtained from the bank, without the special sanction of the Governor.

299. The main stock of stamps, both postage and revenue, will be kept in the safe or vault appointed for that purpose. A stock book will be kept, in which will be entered under each denomination the number and value of stamps received and issued; and this book, on each occasion of either a receipt or issue, will be initialled by the officers appointed to have joint charge of stamps. Stamps will be issued on requisition and a receipt taken from the officer to whom they are issued.

300. Boards of Survey, to be held after the close of business on the last business day of each year, or before the commencement of business on the first day of the new year, will be appointed by the Governor to examine the Treasury cash, bank balances, and stamps, both at headquarters and as far as practicable at the outstations. Boards will also be appointed from time to time to hold surprise surveys of the cash and stamps in the custody of the Treasurer and his sub-accountants.

301. Officers entrusted with the receipt, custody, or disbursement of public money may be required to give security, in accordance with the local law and regulations, for the faithful discharge of their duty. In every case of default the liability of sureties must be enforced.

302. An officer appointed to act for another officer on leave will be required to give the same security as that required to be given by the officer for whom he acts.

J. Accounts and Book-keeping.

303. Every entry in the accounts will be supported by a voucher containing full particulars of the item or items to which it relates.

304. The Treasurer will keep in his office the following principal books of account:—Cash Book, Abstract Book, Journal, and Ledger; together with such subsidiary books as may be necessary.

305. In the Cash Book will be entered all cash transactions as they occur. The entries will be numbered consecutively, on each side of the book, in the order of the receipts or payments, and corresponding numbers will be affixed to the supporting vouchers. The Cash Book will be balanced at the close of each day, and the balance shown compared with the cash in hand. If the balances do not agree, the discrepancy will forthwith be investigated by the Treasurer. If they agree, a certificate will be filled in by the officer in charge of the Cash Book, showing the opening cash and bank balances, the receipts and payments for the day, and the closing balances. This certificate will be countersigned by the Treasurer and sent to the Colonial Secretary as often as may be prescribed by the Governor.

306. Every sub-accountant will keep a cash book, in which he will enter all sums of money received or paid by him as a public officer, for whatever service, whether they form a part of the Colonial revenue or not. He will balance his cash book weekly at least and check the balance with the money in his hands. Officers having large financial responsibility will be required to balance their cash books daily.

307. Every sub-accountant will send his cash book or a certified transcript or summary of it to the Treasurer immediately after the close of each month, accompanied by the necessary supporting vouchers.

308. When the various cash books, or the transcripts or summaries thereof, are received in the Treasury, they will be checked with the supporting vouchers, and any items insufficiently accounted for will be disallowed. Amounts so disallowed will remain with the balance of the account as a charge against the sub-accountant and, if not in due time properly vouched and justified, must be either recovered from such officer as the Governor may hold responsible or provided for by proper authority.

309. The Abstract Book will be posted by an officer or officers other than the officer in charge of the Treasury Cash Book, when the Treasury staff permits of this arrangement. The posting will be done every morning from the vouchers put in on the previous day, checked by comparison with the Cash Book and tested by the Treasurer.

310. The accounts of the various sub-accountants and of the Crown Agents will be abstracted, as soon as they are received, below the record of the transactions of the Treasurer for the period to which they relate.

311. In the Journal will be entered, from day to day, all adjustments authorised to be made between the various ledger accounts; and also, at the close of each month, any such adjustments appearing in the accounts rendered by sub-accountants.

Digitized by Google

312. The Treasurer will keep a subsidiary Journal, in which will be recorded the details of transfers between heads and sub-heads, and of other transactions which cannot be shown in the principal Journal and Ledger.

313. As soon after the end of each month as the sub-accountants' accounts have been abstracted the entries in the Abstract Book will be totalled. The totals of the entries which have been made in the subsidiary Journal for the month will then be posted into the Abstract Book; the expenditure credits, in respect of over debits in the current year, will be deducted from the expenditure, and the revenue debits, in respect of over credits in the current year, from the revenue. The resulting totals will be entered in the Abstract Book and the totals for each ledger account will be posted in the principal Journal.

314. The Ledger will be posted monthly from the principal Journal. It will contain one account for revenue and one for expenditure, an account of surplus and deficit, accounts of loan funds, of advances, deposits, drafts and remittances, and of every fund in the custody of the Government, and such other accounts as the Treasurer shall approve. A trial balance of the Ledger will be made as soon as each month's account has been posted and a summary of the balance sheet under its principal divisions, but excluding the balances of the accounts of funded debt and sinking funds, will be published in the Official Gazette. This summary will form the Statement of the General Assets and Liabilities of the Colonial Government, and show the excess of assets over liabilities as a balance identical with the balance of the Surplus and Deficit Account.

315. The Surplus and Deficit account will be posted exclusively from the accounts of revenue and expenditure; and will accordingly furnish the accurate record of the balance between them, from month to month and from year to year.

316. Every head of a department will keep a Departmental Vote Account in such form as will clearly show at any time in respect of each vote for his department:—

(*a*) the total amount of expenditure sanctioned for the service of the year,

(*b*) the amount of expenditure charged, and

(*c*) any further known liabilities in respect of the service of the year.

317. The monthly accounts rendered by the Treasurer shall consist of the under-mentioned documents:—

(*a*) An Abstract Account of receipts and payments showing, under the several heads, the totals of the receipts and payments in the month and in the then expired period of the year, together with the balances at the commencement and close of the periods;

(*b*) Schedules of the vouchers, under each head of receipt and payment, setting out the various items, arranged according to sub-heads;

(*c*) Vouchers for all items arranged in the order of the schedules.

In Colonies in which the accounts are audited direct from the Treasury books, it will not be necessary to prepare the documents (*a*) and (*b*).

The Abstract Account shall include only sums which have actually been received or paid within the period of account.

318. All account books will continue to be carefully preserved, but vouchers and counterfoils may, as a general rule, be destroyed with the approval of the Governor after the lapse of a clear interval of seven years.

K. *Audit.*

319. The Treasurer will render his accounts for audit monthly, in the prescribed form, as soon as possible after the close of the month to which they relate.

320. Copies of the reports of all Boards of Survey on the various Treasury Chests, together with a certificate signed by the manager of the bank, of the bank balance at the time of the survey, will be forwarded to the Auditor.

321. As soon as possible after the expiration of each financial year, the Treasurer will furnish an Annual Abstract Account showing the whole of the receipts and payments in the year, and the full opening and closing balances.

322. The Annual Abstract Account will be accompanied by detailed statements of revenue and expenditure, showing the amounts actually received or expended during the year as compared with the estimates under each sub-head, together with explanations of the differences.

323. With the Annual Account, there will also be furnished the Statement of the Assets and Liabilities of the Colony at the close of the year, together with the following documents:—

(*a*) A statement of advances outstanding at the end of the year;

(*b*) A statement of deposits outstanding at the end of the year;

(*c*) A statement of investments, showing the amount of stock held on the last day of the year, together with the actual cost and the market value at that date;

(*d*) A statement of the outstanding amount of funded debt or loans, and of any sinking funds.

324. The Auditor is responsible for the audit and inspection of all public accounts of the Government, whether such accounts be of general revenue and expenditure, or accounts of special funds, or departmental accounts.

325. The Auditor is not responsible for the accuracy of the books of account so as to relieve the Treasurer, heads of departments, or other accounting officers of the responsibility therefor, which primarily rests with them. He will nevertheless apply such an examination as will enable him to ascertain that the accounts are kept on a correct system, that they are punctually and properly posted, and that the checks against irregularity and fraud are adequate and effective.

326. He will satisfy himself that the laws of the Colony, the Colonial Regulations, and the instructions of the Governor in all matters of finance and account are strictly observed, and will bring to the notice of the Governor any failure in their observance.

Digitized by Google

327. The Auditor will not undertake any examination of accounts, partaking of the nature of pre-audit, which involves the acceptance by him of a responsibility which would preclude him from full criticism of any accounting transactions after they have been duly recorded in the account books of the Colony.

328. The Auditor will not undertake any duties outside those appertaining to his post which, by reason of the nature or amount of the work involved, might prevent him from performing efficiently his duties as Auditor, without the special authority of the Secretary of State, or, in Colonies where the Auditor is responsible to the Director of Colonial Audit, alternatively, the approval of the Director of Colonial Audit.

329. The examination of the accounts will be carried out either at the local audit offices or at the offices of the various accounting officers, as may be most convenient.

330. The Auditor will examine and check the subsidiary books and the accounts of the authorised imprests and advances, and ascertain whether such imprests and advances are punctually accounted for and repaid. In the event of any imprest having been made to an officer without special authorisation, before a previous imprest has been accounted for, he will report the fact to the Governor. He will at once report any unauthorised advance to any officer or account or any other unauthorised disbursement appearing in the books. In his examination of the deposit accounts he will ascertain that all deposits which have remained unclaimed for five years are, in the absence of special reasons to the contrary, written off to revenue. He will call attention to any apparent neglect in the collection of arrears of revenue.

331. He will in all cases refer to the authorities regulating the expenditure provided for in the Estimates, and will see that the expenditure is in accordance therewith. In the case of expenditure which has not been provided for in the Estimates he will ascertain whether the necessary funds have been voted by the Legislature, and whether the expenditure has been duly sanctioned by the Secretary of State. He will satisfy himself that in every charge against a head the money expended has been applied to the purpose or purposes for which such head was intended to provide, and that it is charged to the proper sub-head.

332. He will satisfy himself that adequate regulations exist for the guidance of store accountants and are duly complied with.

333. He will call upon the accounting officer for explanations of the cause of any undue delay in the rendering of accounts, or in furnishing any statements or returns that he may require, and, if the explanation is not satisfactory, will report the circumstances to the Governor.

334. If the Auditor finds any irregularity in the books, cash, stamps, or stores, for which the head of a department is responsible, he will at once notify the Governor. Should he find the books of any subordinate officer in an unsatisfactory state or discover any irregularity, he will at once notify the head of the department and, if the case be serious, report the circumstances to the Governor.

335. As soon as possible after the close of the financial year the Auditor will prepare a report on the revenue and expenditure of the year, in which he will deal with the collection of the revenue, the state of the arrears, the manner in which the accounts of the Colony are kept, the sufficiency of existing checks against fraud, the nature and extent of the audit applied, and any special questions arising out of the accounts. In Colonies where the Auditor is responsible to the Director of Colonial Audit, he will furnish this report to the Director of Colonial Audit and to the Colonial Secretary. In other Colonies he will address the report to the Colonial Secretary for the information of the Governor. In both cases the report will be laid before the Legislature and a copy will be transmitted by the Governor to the Secretary of State.

The Governor will not alter the report in any way for presentation to the Legislature without the consent of the Auditor or the prior approval of the Secretary of State.

336. The Governor will report forthwith for the decision of the Secretary of State any case in which he has over-ruled the maintained opinion of the Auditor in any matter relating to the public accounts.

L. *Stores.*

337. Local purchases of stores should be confined to articles produced in the Colony or to articles which, owing to special circumstances, can be purchased as advantageously in the Colony as they can be ordered from abroad.

338. Any stores which may be purchased in the Colony should, unless the estimated cost is less than an amount to be laid down by local regulation, be obtained by contract after public tender. If, however, no tenders are made or the Governor has ground for belief that the tenders sent in are collusive or unreasonable, other arrangements may be made. All tenders will be submitted to a Board of not less than three persons appointed by the Governor.

339. All requisitions from a Colony for stores required from the United Kingdom, or from countries not being adjacent to a particular Colony, will be sent direct in duplicate to the Crown Agents by the Colonial Government.

340. The Crown Agents, being the agents of the Colonial Governments, will comply with all requisitions sent to them which bear the signature of, or are forwarded by, the proper officer of the Colonial Government, and they will not refer to the Secretary of State unless they have reason to doubt whether in existing circumstances any particular requisition should be complied with. The officer concerned will therefore be held responsible that no requisitions are sent to the Crown Agents unless the expenditure has been duly authorized.

341. Orders will in no case be given by the Colonial Government directly or through local agents to firms in this country or in countries not adjacent to the Colony, although the names of firms whom the Colonial Government may for any reason wish to employ may be mentioned in the body of the requisition forwarded to the Crown Agents. The Crown Agents will be guided by the wishes of the Colonial Government unless they have reason to consider that this course is not in the interest of the Colony, in which case they will subsequently explain to the Colonial Government the reasons for their action.

342. Purchases of stores required from an adjacent country should be confined to articles produced in that country, and should be procured as far as possible in the manner prescribed by Regulation 338.

343. Every officer having in his charge or custody any stores or other articles which are public property will keep a proper store ledger or inventory to record their disposal.

Digitized by Google

344. Boards of officers, which should not include the storekeeper of the stores to be surveyed, will be appointed by the Governor at the end of each year, and at such other times as may be necessary, to inspect and report upon Government stores; but this will not relieve heads of departments of their responsibility for satisfying themselves by occasional stocktaking that the balances on the ledger are actually in stock.

345. The writing off of losses and deficiencies of stores will require the authority of the Governor: but where such losses or deficiencies are caused by fraud or negligence, and it is desired to relieve the responsible officer of any part of his pecuniary liability, the authority of the Secretary of State will also be required.

346. Articles will only be condemned as unserviceable on the report of a Board of Survey, except in the case of minor articles of a perishable nature, where the Governor may at his discretion dispense with a Board.

347. Unserviceable stores, if sold, will be disposed of by public auction or by tenders after public advertisement, unless the special approval of the Governor is obtained for their being sold otherwise. If such stores are unsuitable for sale they must be destroyed, unless they can be utilised immediately or within a reasonable time for some public service other than that for which they were purchased; but any condemned stores so retained must be suitably marked to prevent their use for the original purpose and should be brought to charge in a subsidiary ledger for obsolete stores.

M. *Government House.*

348. The Government House, together with its stables, garages, outbuildings, fences, and other appurtenances, will be kept in substantial repair throughout at the cost of the Colony. The rooms will be painted and papered (when necessary) and furnished at the public expense. Plate and table ornaments to a moderate and reasonable amount, together with crockery, glass, cutlery, and kitchen utensils, will also be provided at the cost of the Colony.

349. All furniture and effects supplied at the public expense will be kept complete, and any article lost or damaged otherwise than by fair wear and tear during the occupation of the Government House by any officer will be made good at his expense.

350. An accurate inventory of all furniture and effects provided at the public expense will be made and kept by the Director of Public Works, or other officer designated for that purpose, who will at least once in every two years inspect the furniture and effects and prepare a list of all deficiencies, which the officer responsible will thereupon make good at his own expense. "Fair wear and tear" may be held to include breakages or deficiencies of crockery or similar small or fragile articles, but a reasonable limit must be placed upon the amount allowed in this respect, based as far as possible upon the previous practice in the Colony concerned.

351. Whenever a Governor vacates his government, a similar inspection will be made; and if the retiring officer does not cause the deficiencies for which he is responsible to be made good, the inspecting officer will prepare for immediate transmission to the Secretary of State a statement of the expenses to be incurred for that purpose, in order that the Secretary of State may take steps to recover the amount from the officer responsible.

352. The provision made in the Estimates for the purchase of furniture and effects for the Government House will be administered by the Director of Public Works or other officer designated for the purpose, who will from time to time receive from the Governor requests for repairs, replacements, and additions.

353. Expenditure on Government House furniture incurred in the United Kingdom will only be admitted as a charge against Colonial funds when made through the Crown Agents.

N. *Returns.*

354. The Treasurer will furnish to the Colonial Secretary, for transmission by the Governor to the Secretary of State, the following periodical returns:—

(a) Annually.

(i) An abstract account of the total revenue and expenditure of the year under each head of receipt and payment, showing the opening and closing balances in both the Treasurer's and Crown Agents' accounts;
(ii) Detailed statements of revenue and expenditure, arranged according to sub-heads, showing the excess or saving on each sub-head and the net excess or saving on each head, and showing also any supplementary votes for expenditure under any sub-head;
(iii) A full statement of the expenditure on works and other payments chargeable to loan accounts;
(iv) A statement of the assets and liabilities at the close of the year;
(v) A statement of the public debt of the Colony, showing the several amounts of the loans issued and of their respective sinking funds;
(vi) A statement of the investments of the Colonial Government at the close of the year;
(vii) A statement of the receipts, issues, balances in hand, and the assets and liabilities of the Savings Bank, showing separately the revenue derived from Savings Bank investments, the interest credited to depositors, and the expenses of the management of the institution;

(b) Quarterly.

(viii) A statement of the revenue and expenditure under heads to the close of the previous quarter, as compared with
1. The total estimate for the year, and
2. The figures for the corresponding period of the previous year.

355. The Colonial Secretary will furnish, for transmission to the Secretary of State, quarterly returns of all persons newly appointed to public offices of Classes II and III (Part I, Regulation 23) and changes in the holders of existing offices in these classes, arising from promotions or otherwise, during the previous quarter; of all alterations made in the salaries and allowances of public offices of any class; and of all new offices.

APPENDIX 3.

Regulation 119.

A.

Regulations respecting Foreign Orders and Medals applicable to Persons in the Service of the

Orders.

1. No person in the Service of the Crown shall accept or wear the Insignia of any Foreign [Order] having previously obtained His Majesty's permission to do so, signified either :—

(*a*) By Warrant under the Royal Sign-Manual, or

(*b*) By restricted permission conveyed through the Keeper of His Majesty's Privy Purse.

2. When permission is given by Warrant under the Royal Sign-Manual, the Insignia of the [Order] may be worn at all times and without any restriction.

When restricted permission is given the Insignia may only be worn on the occasions specified in the letter from the Keeper of His Majesty's Privy Purse conveying the Royal sanction.

3. Full and unrestricted permission by Warrant under the Royal Sign-Manual is [granted] in the following cases :—

For a Decoration conferred—

(*a*) For distinguished services in the saving of life ;

(*b*) On an Officer in His Majesty's Naval, Military or Air Forces lent to a Foreign Government; Officer in His Majesty's Naval, Military or Air Forces attached by His Majesty's Government to a Foreign Navy, Army or Air Force during hostilities ; or on any British Official lent to a Foreign Government and not in receipt of any emoluments from British public funds during the period of such loan.

4. Restricted permission is particularly contemplated for Decorations which have been conferred in recognition of personal attention to a Foreign Sovereign, the Head of a Foreign State, or a member of the Royal Family, on the occasion of State or official visits by such personages.

5. Restricted permission will also be given for Decorations conferred in the following cases :—

(1) On British Ambassadors or Ministers abroad when the King pays a State visit to the State to which they are accredited ;

(*Note.*—A State visit is defined as one on which the King is accompanied by a Royal Official in attendance.)

(2) On Members of Deputations of British Regiments to Foreign Heads of States ;

(3) On Members of Special Missions when the King is represented at a Foreign Coronation, Funeral, or similar occasion ; or on any Diplomatic Representative when specially appointed to represent His Majesty on such occasions (but not on the members of his Staff).

Restricted permission will *not* be given to—

(*a*) British Ambassadors or Ministers abroad when leaving ;

(*b*) British Officers attending Foreign Manœuvres ;

(*c*) Naval Officers of British Squadrons visiting Foreign Waters.

6. Both in the case of full and of restricted permission the matter will be submitted to His Majesty's Principal Secretary of State for Foreign Affairs, who shall be under no obligation to make applications for permission unless the desire of the Head of a Foreign State to confer upon a British Subject the insignia of an Order is notified to him before the Order is conferred, either through the British Representative accredited to the Head of the Foreign State, or through the Diplomatic Representative of the State at the Court of St. James.

In no case can applications be considered in respect of decorations conferred more than [two years] or offered in connection with services or events so long prior to the nomination.

7. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken action on any such application, and shall have obtained His Majesty's permission for the person who has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Secretary of State for the Home Department, in order that he may cause a Warrant, in the form of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof will appear in the "Gazette."

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Secretary of State for the Home Department a stamp duty of 10s.

8. The Warrant signifying His Majesty's permission may, at the request and at the cost of the person who has obtained it, be registered in the College of Arms. Every such Warrant shall contain a clause providing that His Majesty's licence and permission does not authorise the use of any appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Realm.

Medals.

9. Medals, with the exceptions specified below and State Decorations not carrying with them Orders of Chivalry, are subject to the Regulations in the same manner as Orders, but permission is given and not by Royal Warrant.

10. Medals for saving or attempting to save life at sea or on land, whether conferred by the Government of a Foreign State or by private Life Saving Societies or Institutions, may be worn without

Digitized by Google

Subject, however, in the case of members of His Majesty's Naval, Military or Air Forces, to any restrictions imposed by the King's Regulations for those Services as to the wearing of such medals with uniform.

Applications for His Majesty's permission to wear other Medals conferred by Private Societies or Institutions, and Commemorative Medals cannot be entertained.

11. The King's unrestricted permission to accept and wear a Foreign War Medal will only be given to (1) Members of His Majesty's Naval, Military, or Air Forces if serving with a Foreign Army, Navy, or Air Force with His Majesty's licence, and (2) Military, Naval, or Air Attachés or Officers and other ranks and ratings officially attached to Foreign Armies, Navies, or Air Forces during hostilities.

General.

12. Ladies are subject to the Regulations in all respects in the same manner as men.

Foreign Office, March, 1930.

B.

Regulations respecting Foreign Orders and Medals applicable to Persons NOT in the Service of the Crown.

Orders.

1. No subject of His Majesty shall accept or wear the Insignia of any Foreign Order without having previously obtained His Majesty's permission to do so, signified either:—

(*a*) By Warrant under the Royal Sign-Manual, or

(*b*) By restricted permission conveyed through the Keeper of His Majesty's Privy Purse.

2. When permission is given by Warrant under the Royal Sign-Manual, the Insignia of the Foreign Order may be worn at all times and without any restriction.

When restricted permission is given the Insignia may only be worn on the occasions specified in the terms of the letter from the Keeper of His Majesty's Privy Purse conveying the Royal sanction.

3. Full and unrestricted permission by Warrant under the Royal Sign-Manual will only be given in the case of Decorations earned by services in the salaried employment of the Foreign Government concerned, by honorary consular services of not less than three years' duration, or by distinguished services in the saving of life.

Such services must have been rendered at least in part, within the period of five years immediately preceding the notification prescribed by Rule 5 below.

4. Restricted permission will ordinarily be given in all other cases, except where considerations of general policy or public interest must be held to preclude permission; provided however, that such permission shall not be given in the case of Decorations conferred or offered more than five years before the date of application for permission, and, further, that the bestowal of the Decoration has been made the subject of an official communication through one of the channels prescribed in Rule 5.

5. Both in the case of full and of restricted permission the matter will be submitted to the King by His Majesty's Principal Secretary of State for Foreign Affairs, who shall be under no obligation to consider applications for permission unless the desire of the Head of a Foreign State to confer upon a British subject the Insignia of an Order is notified to him before the Order is conferred, either through the British Diplomatic Representative accredited to the Head of the Foreign State, or through the Diplomatic Representative of the latter at the Court of St. James.

6. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken the King's pleasure on any such application, and shall have obtained His Majesty's permission for the person in whose favour it has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Principal Secretary of State for the Home Department, in order that he may cause a Warrant, if it be a case for the issue of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof shall be inserted in the "Gazette."

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Principal Secretary of State for the Home Department a stamp Duty of 10s.

7. The Warrant signifying His Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms. Every such Warrant as aforesaid shall contain a clause providing that His Majesty's licence and permission does not authorise the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Majesty's Realms.

Medals.

8. Medals, with the exceptions specified below, and State Decorations not carrying membership of an Order of Chivalry, are subject to the Regulations in the same manner as Orders, but permission to wear is given by Letter and not by Royal Warrant. No permission is needed to accept a Foreign Medal if it is not to be worn.

9. Medals for saving or attempting to save life at sea or on land, whether conferred on behalf of the Head or Government of a Foreign State, or by private Life Saving Societies or Institutions, may be accepted and worn without restriction.

Applications for His Majesty's permission to wear other Medals conferred by Private Societies or Institutions, and Commemorative Medals, cannot be entertained.

10. His Majesty will not grant permission to wear any Foreign War Medal if the person on whom it is to be or has been conferred was during the war acting in contravention of the Foreign Enlistment Act.

General.

11. Ladies are subject to the Regulations in all respects in the same manner as men.

APPENDIX 4.

Regulation 120.

Colonial Officers entitled to Salutes when in their Official Capacities.	No. of Guns.	By His Majesty's Ships.			By the Fort or Battery from which Salutes are usually fired.		
		Within what Limits.	Occasions.	How often by the same Flag, Broad Pendant or Ship.	Within what Limits.	Occasions.	How often.
Governor or High Commissioners* of any of His Majesty's Colonies, Protectorates, Territories, Dependencies, Castles, or Fortresses.	17	Those of his Government.	On landing on first appointment, or on return from leave of absence, at his destination from the United Kingdom, by the ship in which he arrives.	As the occasion arises.	Those of his Government.	On first landing, on reading of Royal Commission and taking Oaths of Office, or on return from leave of absence exceeding three months.	As the occasion arises.
			When visiting a ship, either on going on board or on leaving, by such ship.	Once a year and by only one ship on the same day.		On proceeding on leave of absence, or finally quitting his Government.	As the occasion arises.
Lieutenant-Governor or Commissioner if administering the Government of a Colony, Protectorate, Territory, or Dependency, and if holding a Commission direct from the King, or acting temporarily for an Officer so commissioned, Administrators or Commissioners of Colonies, Protectorates, Territories, or Dependencies, acting in subordination to a Governor or High Commissioner.	15		On finally quitting his Government or on proceeding on leave of absence, by the ship in which he embarks.	As the occasion arises.		When officially visiting other Forts or Dependencies of his Government.	Once a year only in any one place.
Lieutenant-Governor not administering a Government if holding a Commission direct from the King.	15	At the seat of Government only.	On disembarking for the first time from the ship in which he may have arrived and on embarking for his final departure, by the ship in which he	As the occasion arises.	At the seat of Government only.	On first arrival and on final departure.	As the occasion arises.

Let us solve your Income Tax difficulties

REPAYMENT CLAIMS
RETURNS
APPEALS - ADVICE

WHATEVER the nature of your difficulty—it may be the preparation of your claim for repayment, the rendering of a Return, a point of doubt on which you desire advice—there is always available our service to help you.

Nearly fifty years ago by finding out the needs of people at hand, we discovered the needs of many thousands of taxpayers in every quarter of the world. We have attained a national status and are today regarded as the pioneer and leading Agency for taxation matters.

• •

WITH so highly intricate a system of Income Tax, tangles and queries are bound to beset you. Wherever you may be, whatever your difficulty, you may rely on the help of our organisation to straighten it out and secure for you the maximum relief the law allows. A copy of our brochure and enquiry forms will be sent to you on request.
